

The town the last to know

There's an old saying that the husband...or the wife...is the last to know. But this time, it was the town officials and the PUC.

Everybody in Deseronto knows by now that the water...finally...is fit to drink, after more than 10 years of a boil-only order.

But no formal notification was given to town officials or the PUC in advance. Instead, the Ontario Ministry of the Environment gave it to the out-of-town radio stations a week ago Tuesday. The town clerk, Carmen Milligan, was not notified until the Wednesday morning.

By Wednesday afternoon, neither the chairman of the PUC, Frieda Vick, nor the PUC manager, Carl Kaestner had been notified.

The Ministry of the Environment has been pretty 'high-handed' in its treatment of this small town.

Council has been trying for some time to get the Ministry to give an explanation of the reason why costs of the new water system escalated so rapidly. The Ministry has been fobbing them off with excuses such as pointing out that rates here are comparable with rates elsewhere.

Five years from now, residential water rates will be up to \$161 a year. With costs like that, the least the town had a right to expect was to be the first to know when the water was ready to use...straight from the tap.

Corts to meet in Trenton

The Canada-Ontario-Rideau-Trent-Severn (CORTS) advisory committee is holding a public meeting in Trenton, in the Knights of Columbus Hall, 57 Stellar Crescent on June 15, at 7 p.m.

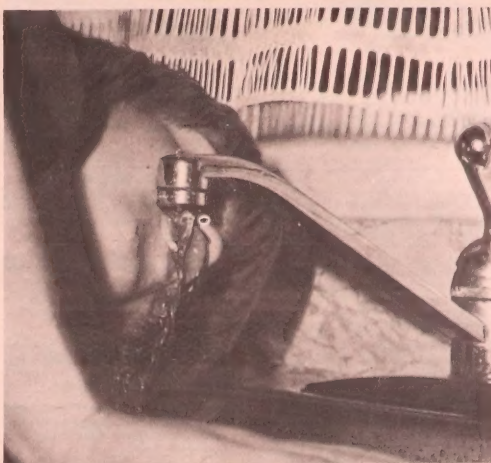

This is a continuation of the public meetings to be held this year along the waterway from Ottawa to Port Severn. Purpose of the meetings is to get reaction to the CORTS 'Interim Land Use Guidelines' and 'Greenpaper'. Displays on the two reports, set up to aid discussion, will be on view before the meeting.

Angus Mowat boat race planned

Angus Mowat's 27-foot sloop, the Scott Hutcheson, is back in the water again, its familiar red sails blowing in the Bay of Quinte breezes.

Before his death, last September, Angus was too sick to sail it and last summer it stayed in the boathouse of the Northport property. Last Saturday, Barbara Mowat and her friends pushed, struggled and strained to get it out of the boathouse, to raise the mast and sails, and slip it gently into the water again, in preparation for its entry into the first Angus Mowat Trophy Race coming up on July 7.

On hand for the launching was Niall Carney, who will sail it in the race.

STRAIGHT FROM THE TAP AT LAST!

Bradley Starling, St. George Street, like all Deseronto folks, can now drink his water straight, without boiling. The boil water ban went on back in the 60's and it wasn't until last week, that Deseronto water was safe to drink - just as it comes from the tap.

STRICTLY FOR THE BIRDS

Long Point fishermen wonder about leases

Point Traverse...or Long Point as the locals have always called it...jutting out into Lake Ontario at the southeastern end of Prince Edward County...lies in a natural flight path for more than 200 species of migrating birds.

The Point has been purchased by the Federal Government as a Bird Sanctuary.

But the birds aren't the only ones who have been coming here for years...so have the county fishermen and the new landlord is causing some fear in fishermen's minds as to their continuing tenancy.

There are more than ten families who spend seven or eight months of the year on the point, engaged in commercial fishing. They have erected cottages and other buildings on property leased from Charles Hirshey of Clayton N.Y., the previous owner who sold to the Federal Government. Leases were for five years and some still have about five years to run.

But there is a clause in the lease allowing it to be terminated on 30 days' notice for 'obnoxious' conduct'. Just what that means will be up to the Federal government, because the landlord is the sole judge, according to the lease.

Will hydro line stop at the reach?

Well, the 230,000 volt Ontario Hydro transmission line from Gretna Junction to Prince Edward County is another step on the way now...the Minister of Energy has ruled on the complaints and criticisms voiced at the hearings in Napanee last February and hydro has the go-ahead to proceed with expropriation of easement for the line.

But the line won't go any further than the edge of the Hayward Long Reach, unless someone can come up with a plan for a submarine set-up to carry power under the Reach which will get environmental approval.

When asked by the Scanner whether any method of submerging the line under the Reach had been approved, Norm Manning, Hydro's public relations officer for the Eastern Ontario area, said: 'Not that I'm aware of'.

Meanwhile, expropriation is going to begin with appraisals of property starting June 19. The next step, between the end of July and the middle of August, will be serving owners with notices of expropriation and, after that, will come the negotiations with individuals. In case of disputes over compensation, the services of the Land Compensation Board of Ontario are available to owners to determine compensation, Mr. Manning said.

At the February hearings in Napanee, Hydro had to prove that its expropriation of land was 'fair, sound and reasonably necessary in the achievement of Hydro's objectives'. Eight property owners presented their side of the story at the hearings. Don

EDITORIAL

GIVE SMALL BUSINESS A CHANCE

This editorial appeared in the Okanagan Falls newspaper and was brought to our attention by one of our local merchants... Jim Lester of Carload Groceries.

It's as topical here as it was in Okanagan Falls... and we think it's well worth repeating.

I'd like to ask the people a few questions. It's a matter of economic survival to me as well as to millions of other little people who have small stores.

Whom do you ask to cash your checks? Whom do you ask for credit when things are tight? Whom do you ask to take ads for your organization's yearbooks and programs? Whom do you ask for contributions to banquets, raffles, etc?

Whom do you call after hours when you need a special item? Who do you ask to put up your posters for special events? Who helps sponsor and coach minor hockey, soccer teams, etc? Who donates prizes and awards to 4-H clubs, bowling and curling leagues, local school activities, horse shows and fair days?

It's your local home town small businessman. After all, he's your friend and neighbour.

But when you want to make a purchase, how often do you drive past his place of business and go to a giant store thinking you might save a few cents, without giving your local merchant a chance or even comparing his prices?

We are competitive with the biggest stores price-wise and our services are often better. But we can't survive much longer. When we go you'll miss us.

Survey will determine demand for assisted rental housing

In conjunction with the preparation of a 'Municipal Housing Statement' by the Town of Deseronto, Ontario's Ministry of Housing will conduct a survey to determine the demand for additional Senior Citizen & Family assisted rental housing in the Town of Deseronto.

An estimate of the number of senior citizens and tenant families living in the Town of Deseronto whose housing is inadequate or beyond their financial capabilities will be made by the Ministry.

The demand in the area for housing on a rent geared-to-income basis will be determined from information gathered through applications and questionnaires completed by Town residents and returned to the Ontario Housing Authority in Ottawa.

The study will begin shortly with questionnaires being distributed to tenant families and senior citizens on or about June 15, 1978.

If the survey shows a need for senior citizen housing, it would likely be an apartment building, although consideration is given to one-storey units which do not require stairways. Rent is geared to the total income of the applicant.

The size of the family housing units varies with community needs, but up to five bedrooms may be included. Rent is based on gross family income, not on the number of bedrooms or type of housing provided.

After it receives the results of the survey indicating a need for a specific number of units, a municipality may:

- Develop an assisted rental project on its own through a municipal non-profit housing agency.

- Request the Ministry of Housing to undertake the development.

- Ask the Ministry to seek private sector involvement to secure units under the Rent Supplement Program.

- Encourage the creation of a local non-profit group-community, labour or service club organization for example - to develop a non-profit housing project.

Residents interested in assisted rental accommodation may obtain questionnaire forms from the Town of Deseronto municipal offices, 331 Main Street, Deseronto.

Sure is a lot of speculation going on in the County about what's in the wind. Most of it seems to turn about all them banks what has set themselves up on the main street.

Now it just strikes me funny, two new ones coming in about the same time. When you stops to figger out how many farmers there is over to Picton, it's a wonder there's enough money around to keep the ones that was there already in business. Anyways, according to reports, they've gone and spent a fortune on them buildings. Can't say I think that red brick fortress the Bank of Commerce stuck up does much to improve the old main street. Still, each to his own taste.

Anyways, we all know as bankers ain't ones to spend no money, less'n it brings a whole heap back. They're know fer having the inside track on things too, things that ordinary folk only hear about when it's over and done with.

Sure does seem strange, two new banks setting up, and the others busy giving themselves face lifts like a bunch of old wimmen of to a dance.

Tell you one thing, Whatever it is that's going on, one things sure. I won't be getting no 'piece of the action' as the young uns say.

Tell you another thing, if'n that politician Menzies feller talks anybody into setting up a Atomic Dump anywhere close to me, I'll be out there with my pitchfork, giving 'em the 'farmer's tickle'. Not that I'm one to get scared too easy, but I ain't afeared to say that this Atomic Garbage stuff sure

shakes the briches right off of me. Must be worse for folks with young uns, but I don't fancy the old woman and me getting all hot and radioactive in our old age. At our time of life, there's moments when ordinary active is too much for my old bones.

Still, I reckon we'll just have to wait and see, nobody ain't saying nothing. They're just peeking through them surveying things out to Point Petre and building banks. Reckon we'll just have to wait and see, same as usual.

Presbyterian Church holds Bridal Gown Tea

The Deseronto Presbyterian Church, Ladies Aid held a Bridal Gown Tea on Saturday, June 3. The hall was decorated with a wedding theme, with bells and bows, wedding cake and flowers.

There was a lovely display of wedding gowns and photos, some belonging to members and others to friends. Two young ladies wore their wedding gowns to help serve and another wore her mother's wedding gown.

The tea table looked very pretty, centred with a mixed bouquet of flowers, also bells and a bride's bouquet. The small tables each had centres of wee 'nose-gays' of gundrop flowers and a small vase of real flowers.

The president, Mrs. Mabel Moore, greeted the guests at the door, with Mrs. Stella MacMillan receiving the admission.

Those who poured tea were Mrs. Robert Jones, wife of the Minister; Mrs. Kathleen Allin and Mrs. Gordon Fresque. Servers were Mrs. Dorothy McCullough, Mrs. Nikki Loney, Mrs. Bob Shepherd, Mrs. David Thompson and Miss Shirley Klaves.

Mrs. Bertha Boston and Mrs. Millie Burleigh looked after the home bake table.

The gift table with Mrs. Kay Hood, Mrs. Violet Barber and Mrs. Kim Saggashie in charge, also had the wedding theme with surprise gifts wrapped for flower girl and ring bearer, also gifts for bride or groom and members of wedding group.

Two very busy ladies in the kitchen were Mrs. Beryl Herman and Mrs. George Jackson. The tea was well attended so was a great success.

Hit at the Box Office

Ontario's Ministry of Industry and Tourism has captured a 'Best of Class' award with its film 'Grow With Ontario'.

The film was 'a resounding success when shown in Japan last fall by Premier Davis on his investment mission and continues to attract investors around the world to Ontario through its vivid depiction of this province's attractive business environment,' said John Rhodes, Minister of Industry and Tourism.

Come on now, Mr. Rhodes. Our memories aren't that short. Anyone who reads a newspaper knows what the Japanese industrialists think about Ontario's business methods...they certainly were open with their criticism of our democratic way of running our business, when Mr. Davis was there.

Paprika

This Hungarian word means sweet pepper. It is prepared from the pods of a cultivated pepper plant called capsicum. After the seeds have been removed, the pods are strung up, hung, dried and finally powdered.

Paprika is less biting than red or cayenne pepper and has a sweeter taste. Because of its bright red colour it is often seen as a light dusting on pale-looking foods such as devilled eggs and potato salad.

Too many of us tend to use paprika only as a decoration while soups, casseroles, vegetables and even good old hamburgers are begging to be made better eating with a liberal sprinkling of this seasoning.

The Hungarian housewife may well use only salt in larger quantities than she does paprika. She knows what we yet have to discover. Let's begin with the national dish of Hungary - the goulash (a beef stew).

Hungarian Goulash

Boneless lean beef, cubed, 2 lbs.
Salt, pepper, garlic powder
Butter or margarine, 3 tbsps.
Onions, sliced, 4
Carrots, sliced, 4
Celery, sliced, 4 stalks

Green peppers, shredded, 2
Garlic, crushed, 2 cloves
Hungarian paprika, 2 tbsps.
Tomato paste, 1 tsp
Flour, 3 tbsps
Beef bouillon 1½ cups (1 Maggi cube in 1½ cups boiling water)
Salt, 2 tps
Pepper, ½ tsp
Caraway seeds, 1 tsp
Sweet red peppers, shredded, 2 (optional)
Sour cream or quark, 1 cup

— Sprinkle beef cubes with salt, pepper, garlic powder. Heat 2 tbsps of the butter or margarine in deep skillet and brown meat quickly. Remove.
— Heat remaining butter in pan and add vegetables and garlic. Cook over medium heat for 5 minutes, stirring occasionally. Stir in paprika and cook another minute. Blend in tomato paste and flour. Stir in bouillon and bring to a boil. Add meat, salt, pepper and caraway seeds. Cover and cook slowly for 2½ hours.

— Remove the meat. Strain the sauce, pressing the vegetables through a sieve (or put through a blender), and pour over the meat. Reheat for 15 minutes.
— Stir in red peppers and sour cream or Quark and heat through. Do not boil.
— Serve with rice or noodles. Serves 4-5.

Senior Citizens' Week coming up

In Ontario on June 18 a special week long celebration will begin. An occasion when we recognize the many valuable contributions that senior citizens are making to this province.

This year, the theme of Senior Citizens' Week is REACH OUT. Ontario's Minister of Community and Social Services, the Hon. Keith Norton, who is responsible for many provincial services to the elderly, sees this special week as a time for the young and the elderly to reach out to each other; a time to promote community involvement; and a time for reaching out to those who need help and encouragement.

'Seniors are used to reaching out to each other, helping their peers and accepting help in return', Mr. Norton says. 'But we would like to see a broadening of this community. Learning, sharing, and enjoying life with our senior citizens is a rewarding and worthwhile experience. That is why the theme REACH OUT was chosen. It is

intended to convey a threefold message: actively seeking and enjoying the challenges of giving and accepting; going out into the community and bringing people closer together; and making this helping and sharing an ongoing part of community life.

To celebrate Senior Citizens' Week, the many centres, groups and homes for the elderly throughout Ontario will be staging their own events such as craft shows, outings, dances and social nights. As well, many civic organizations and public places such as museums and art galleries are preparing programs especially for seniors.

In fact, an increasing number of organizations, both public and private, are formally recognizing the particular needs and importance of our older people. Most banks and trust companies offer special privileges to seniors such as free chequing. Drug companies, travel agents, and theatres are making their products and services available to the elderly at reduced rates.

MINISTRY OF HOUSING

TOWN OF DESERONTO RENTAL HOUSING

- IF YOU HAVE ONE OR MORE CHILDREN
- IF YOU ARE SIXTY YEARS OF AGE OR OVER
- IF YOUR PRESENT ACCOMMODATION IS INADEQUATE
- IF YOUR INCOME IS MODEST

THIS IS OF INTEREST TO YOU

The Council of the Town of Deseronto has asked the Ontario Ministry of Housing to determine the interest and need for new rent-geared-to-income accommodation in your community. If there is a need, rent-geared-to-income accommodation will be developed by the Ontario Housing Corporation at the request of your Municipal Council.

Questionnaires will be distributed to tenant families and senior citizens as part of a survey to determine the interest in this type of housing.

ONLY BY COMPLETING A QUESTIONNAIRE CAN YOU HELP TO DETERMINE WHETHER THERE IS A DEMAND FOR RENT-GEARED-TO-INCOME ACCOMMODATION.

For tenant families and senior citizens interested in this type of accommodation, additional information and questionnaires may be obtained at:

Town of Deseronto
Municipal Office
331 Main Street
Deseronto, Ontario

Quinte News Round Up

LOSING THEIR TASTE?

Apathy by local residents has been given as the reason for cancellation of plans for the Wellington and District Lions Club for 1978 annual fishing derby.

With all the talk about polluted fish in the area, maybe everyone has lost their taste for fishing.

IT TOOK A LONG TIME

By June 30, Ontario Hydro expects to complete repair work on the power cable bringing electricity to Prince Edward from the mainland. The submarine cable line which broke last winter is being replaced with a four-cable line...2,900 metres of it.

Originally, it was expected the line would be repaired about the end of April. Meanwhile, the county seems to have done very nicely with the reduced power supply, raising the question, once again...is the submarine line under the Hayward Long Reach really necessary.

FAMILY CONFERENCE

A conference of interest to parents, students, educators, health and social service people, practitioners, clergy, community groups and agencies is going to be held at the Education Centre, 156 Ann Street, Belleville on Friday and Saturday, June 9 and 10.

The two-day conference on 'Family Living: the Challenge of Today' will provide stimulation and encouragement to those determine and influence family living. Sessions will involve an examination of family living, relationships and encouragement.

Registration takes place Friday morning.

On Thursday evening, there will be a public lecture on 'Family Living in the 1970's' at Centennial Secondary School, Belleville.

CALL OF THE TROPICS

Dan Neilsen, a Prince Edward County holstein farmer, spent two weeks as an adviser in the 'Helpers for Haiti' project, sponsored by Rotary District 707 recently.

While there, he instructed island natives in feeding programs, animal health care and parasite control. Mr. Neilsen has been offered a year-long posting to work with the program.

To a County farmer, Haiti would look pretty pleasant as a winter job site.

WHO CARES ABOUT COLOURS?

With a colorful Ontario wildflower cover, the new telephone directory for Kingston and surrounding area is making its annual June appearance.

Distribution of the new directories started last week and will be completed by June 13, according to Don Brennan, Bell Canada manager.

Ontario's official flower, the trillium, is one of nine of the provincial wild flowers featured on the cover of the some 75,000 directories to be distributed this year in the Kingston area, an increase of 3,000 over last year.

As with last year's book, an eight-page color supplement provides customers with a convenient guide to the styles and colors of phones for both the homeowner and small businessman, he stated.

And much good it will be to any of the rural customers in this area. Who cares about style or colour when you've got eight other people on your line and what you're looking for is service.

Hydro hearing ruling - few changes

continued from page one

Anderson of North Fredericksburgh wanted the line to start submerging further east because it was going to spoil his view...but Hydro experts pointed out that would cost an additional \$360,000.

Mr. and Mrs. R. Mouck, RR 3, Napanee, wanted the line further south where the land on their property was not good land. They were also worried about possible environmental effects of the line.

William Keough of Sophiasburgh preferred to sell land to Hydro rather than to grant an easement.

C.H. Coughlin and J. G. Wood, RR 3, Napanee, have a horse training track which will be right under the line, possibly spooking the horses.

When questioned, previous to the hearing, Arnold Devries, Sophiasburgh farmer, said he wasn't going to the hearing because, 'I don't think there's any use in fighting Hydro'.

And it looks as if he was probably right.

The decision handed down by Energy Minister Reuben Baetz made no changes in the line, although it was agreed, in a few instances, to purchase rather than take an easement, and it was suggested that something might be done to minimize the horse track problem, if it could be done.

BAHA'I FAITH

QUESTION:
What causes the apparent differences in religions?

ANSWER:
There are no real differences. The spiritual or inner teachings of all the messengers of God are the same; for example, such teachings as Love of God and love for One's fellow man. The differences occur in the social or outer teachings, such as marriage, divorce, the form of fasting, prayer, etc. These outer laws which govern and guide the actions of mankind are changed according to the needs of the people to whom the Messenger appears.

Deseronto kids can learn how to swim

Once again, a swimming instruction program will be available to Deseronto youngsters, offered in co-operation with the Napanee Recreation group.

Registration will be this Friday, June 10, at the Recreation Office in Napanee's Town Hall.

If enough youngsters sign up for the classes it will be possible to use Deseronto's recreation bus to get them back and forth, Recreation Director Jack Layfield said.

DAVID MERCER — 476-6644

CORNUCOPIA

By Ann McGill

After the recent tragic fire in Toronto in which a mother and five children died, I expect most of us are thinking about buying a smoke detector.

In 1974 nearly 300 people in Ontario died in fires. Many of the fires could have been prevented if warning had come early enough and most of the lives could have been saved. Most of these fires occurred in homes and most started at night.

The Ministry of Consumer and Commercial Relations has issued a bulletin to inform people about smoke detectors and to help you decide which is best for your home.

First you should establish an escape route and have your family practise it. Fire extinguishers should be readily available for small fires but don't try to use them on larger fires.

There are two types of fire detectors: heat detectors and smoke detectors. Heat detectors are commonly used in commercial buildings but the more quickly activated smoke detectors are recommended for residential use.

Before you buy any smoke detector be sure that there is a label on it indicating that it has been tested by the Underwriters' Laboratories of Canada. There are two types of smoke detectors: ionization and photoelectric. Both are effective in warning occupants, but the degree of effectiveness varies.

Ionization type smoke detectors use a minute amount of radioactive material to allow the air inside the unit to conduct electricity. A small current passes through the 'ionized' air. When smoke enters the chamber, it impedes the flow of current, and at a predetermined level, sets off the alarm.

The photoelectric type uses a light-sensitive photoelectric cell and a light source, either a bulb or a light emitting diode. When smoke enters the unit, it

scatters the light beam, deflecting it to the photoelectric cell and setting off the alarm.

Ionization detectors are relatively effective in detecting smoke from fires even before the smoke is visible. Photoelectric units, according to some tests, may respond more quickly to smouldering fires. Both types will sound the alarm much more quickly than heat-activated detectors.

Smoke detectors now on the market may be battery operated, plugged into the wall or hooked up to house wiring. Battery operated units are the easiest units to install. They come with a battery which lasts about a year at which time the unit 'beeps' and a visual signal indicates that a new battery is needed.

Plug-in units have the disadvantage of a fixed length cord which dictates where the unit may be placed.

House-wired systems, now being installed in all new homes in Ontario, may be interconnected so that if one unit senses a fire hazard, all systems will be triggered.

Install smoke detectors on or near the ceiling and if only one is to be used, install it near the sleeping quarters.

Other than an occasional vacuuming to clear dust particles from the chamber, the units need little maintenance.

By-law officer named

Marvin Brooks is the fellow who will be looking after investigations designed to keep Deseronto property up to standards. He has been named by council as the town's new property standards by-law officer.

'We are now in a position where we can receive and look after any complaints,' Carman Milligan, town clerk treasurer said. 'We would prefer the complaints to be in writing, addressed to myself or to the town. The complaints will be turned over to the new by-law officer.'

Mr. Brooks will be paid on a per-investigation basis.

Letters to the Editor

AGREES WITH DANCE VETO

Dear Editor:

As a concerned parent and citizen of Deseronto, I feel I should comment on the article in last week's paper regarding the dances sponsored by the Deseronto Policeman's Association.

I do not believe that anyone wishes to criticize the intentions or efforts made by the policemen or Mr. Meeks. What has to be questioned, is the way in which the dances are organized and operated.

Due to a lack of any rules or regulations youngsters, aged eight and nine are admitted, consequently witnessing numerous drinking violations and disorderly conduct.

Areas within the school are left in appalling condition, property is damaged and the young students find their playground strewn with broken and empty beer and whiskey bottles, on Monday morning.

Many interested and co-operative parents have been totally unaware of any need for supervisors.

Dances are needed for our TEEN youth but not at the expense of lowering moral standards or destruction of community property.

I believe that any persons working with youth have a tremendous responsibility and should not take these responsibilities lightly. Nor should they as examples of good living citizens condone the behaviour that has existed at the youth dances over the past year.

Yours sincerely
Marilyn Cole

VANDALS IN MINORITY

Dear Editor:

Reference is made to a recent article in your paper, in which Mr. G. Muir, Principal of Deseronto Public School is criticised for the cancellation of Friday night dances at the school.

As one deeply involved in attempts to acquire facilities for the use of the general public in Deseronto over the past twenty years, I feel an obligation to comment further on the above situation.

My enthusiasm, and I am sure the enthusiasm of many others, has been dampened somewhat in recent years over the apparent lack of respect for facilities by our young people, which in most cases have been provided for their benefit. The deliberate and malicious damage of public facilities by disrespectful young people is costing tax-payers thousands of dollars annually. We parents tend to dismiss the problem by refusing to believe our children would act in such a manner. Fortunately, this type of individual is in the minority, however, their obvious disregard for public property gradually deprives the majority of our young people from thoroughly enjoying events and facilities which were created for their needs.

At the Deseronto arena we have taken a reasonably tough position on deliberate damage, foul language, etc. In spite of our efforts the facility has, on occasion been subjected to unnecessary abuse. Many hundreds of dollars have been used to repair, or replace toilets, drinking fountains, broken windows, etc. Too many people, young and old alike, seem to think their 35 to 50 cents admission gives them the right to do as they please in a public building.

I fully support the position Mr. Muir has taken. Eventually, as the volunteers in the community shy away from involvement in programs for young people, they might begin to realize they are the losers in the long run. It is high time that parents, teenagers, and all citizens make a more determined effort to help curb this unnecessary vandalism, so that the 90 to 95% of law abiding youth of the town will not be deprived of facility use, and penalized for the actions of a few irresponsible young people.

Sincerely,
J.A. Layfield, Director,
Recreation and Community Centre,
Deseronto.

Getting his first smell of the outdoors, Lucky 'Brander' landed himself a waterfront home near Northport. All the smells, sights and touches are fascinating when it's your first time

Annual piano-guitar recital held

The fifth annual recital of piano and guitar pupils of Mrs. Sheryle Brant and the Tyendinag Senior Citizens Club, was held May 26.

Alison Cole was the winner of the Excellence Award Scholarship, a plaque and \$25, presented to the student who has done the most outstanding job of concentrated practice all year.

Others taking part in the program were:

Recitations: Scott Maracle, Michael Rivers, Shelley Allport, Scott Rivers, Lisa McMechan, Rebecca Allport, Melanie Clark, Robin Kimmitt, Alison Cole.

Beginners: Lisa McMechan, Scott Rivers, Michael Rivers, Scott Maracle, Rebecca Allport. Solo: Michelle Sagar. Duet: Callie Hill and Mrs. Brant.

Grade 1: Robin Kimmitt, Melanie Clark. Guitar Solo: Jeffrey Boomhour.

Grade 2: Shelley Allport, Samantha Wilkinson. Guitar Solo: Alison Cole.

Grade 3: Karyn Faulkner, Vaughn Maracle, Geraldine Pulver. Duet: Elizabeth & Jane Burkholder.

Grade 4: Trudy McFarlane, Sandra

Maracle, Callie Hill. Guitar Solo: Carolyn Montgomery. Piano Solo: Jayne Burkholder.

Grade 5: Elizabeth Burkholder, Dione Wilkinson. Solo: Elizabeth Burkholder. Duet: Carolyn Montgomery and Mrs. Brant.

Grade 6: Carolyn Montgomery, Dianne Murphy. Duet: Carolyn Montgomery and Lorene Reid (flute). The flautist was a guest performer.

Arena director studies cost cuts

Studies aimed at helping community arenas meet expenses in the face of higher energy costs are being undertaken by two Provincial ministries. Energy, and Culture and Recreation. Increasing energy and labour costs have prompted some arena operators to consider reducing available ice time, raising rental fees or making cuts in part time staff.

Recreation Director, Jack Layfield, said he started last winter to save energy by scheduling ice time to fit into the early part of the evening so he could shut lights off as soon after 11 p.m. as possible.

'We could save some power energy by adding some auxiliary lighting...spot lights or fluorescents...so we wouldn't have to run all present three strings of lights while flooding the ice, or when the rink is rented out during off-season for such things as last week's Lions Club Exposition,' he said.

Power bills for the arena last March were \$1,500 and, for the whole year, they run between \$10,000 and \$11,000.

'We have also thought about raising rental fees,' Layfield said.

Jack works on a break-even basis in operating the arena. 'Some municipal councils look on arenas as public service,' he said. 'Some think they should break even, some think they should make money and others think money should be put into them. The terms of reference when I was hired for the job were that I was to aim for breaking even.'

'It's not easy to break even. Around June you start to go into the red. Then it picks up in November and December when ice time is being used. But the ice season is split up into different years because my budget is from Jan. 1 to Dec. 31.'

The arena showed a deficit of \$2,900 for 1977. But, over the past three years, it has shown a bit of surplus.

When Mr. Layfield is talking about breaking even, he says he is looking at operating costs and improvements. 'I budget about 6 to 8% of the budget for improvements. Over the past three years, about \$18,000 has been budgetted for improvements.'

Summer health programs

Forty-eight summer projects are being funded in Ontario by the Federal Department of Health and Welfare.

Among them are: Rehabilitation Unit, Kingston Psychiatric Hospital, \$4,769.95 for project enrichment; Belleville General Hospital, \$4,604.95, for development of Hospital Safety Manual; Kingston General Hospital Child and Family Psychiatric Unit, \$2,300.17, for comparative study of short-term activity groups in promoting emotional expression in socially acceptable ways; Canadian Hearing Society, Kingston, \$3,685.29 for electronic aids for the deaf.

There are 210 projects across Canada, total cost is \$913,053.61, and they will supply jobs for 433 post-secondary students.

It was blossom time in the Niagara Peninsula last week, and the Scanner's contributing photographer, David Mercer, was there to take this shot of the magnolia blossoms.

Fishermen worried about leases

continued from page one

Bill Aman is one of the lease holders. He and his son, Larry, along with Ray Lancaster and his son, Roxy, operate a fishing business.

Mr. Aman has been coming to the area for many years and had his first lease in July of 1956. Roxy Lancaster said his family had fished there for four generations and pointed out a small building where his uncle used to stay 50 years ago.

Mr. Aman owns his cottage and outbuildings. He was working on new coolers, when interviewed on Monday and said he had obtained permission from the Federal Government to go ahead with this new construction.

Asked about reports of 'high-handedness' by some federal government officials, from Habitat and Ecological Assessment, Canadian Wildlife Services, Mr. Aman said he 'hadn't had much trouble with the Federal Government' but he added that

'Charlie Hirshey was one of the best and I'm afraid we haven't got as good a landlord now.'

The Amans and Lancasters catch eels, perch, some white fish and, as Roxy Lancaster put it, 'the notorious smelt'.

'I can't see how we're interfering with the Government bird banding program,' Bill Aman said.

According to a realtor, the Federal Government paid \$226,500 for the 400 acres on the point. They also tried to buy adjoining properties.

Lions Club Exposition kept members busy last weekend

Don Lindsay, newly-elected local chairman for the CNIB and a Lions Club member spent a lot of time setting up his booth at the exposition. On display booth at the exposition. Here he is working on the equipment which reproduces small type reading material in a magnified form, on a TV screen. Another interesting gadget was a mathematical computer which sounded out the numbers and directions as they were punched. On the right Police Chief Carl Beattie mans the fishpond — always popular with the children.

OBITUARIES

HARVEY - Mrs. Sarah Harvey, of R.R. 6, Napanee, died in the Lennox and Addington County General Hospital on Thursday, May 25, 1978 at the age of 94.

The daughter of the late John McFarlane and the late Catherine Sexsmith, she spent her lifetime in the area, and was the wife of the late Robert Harvey.

She is survived by her children, Delbert Francis of R.R. 6, Napanee, Ethel Eileen (Mrs. Ernest Ford) of Port Dover and Mary Edith (Mrs. Harold Grooms) of R.R. 2, Napanee.

The funeral service was held on May 27, 1978 at the White and Morris Funeral Home, Deseronto with Rev. John Hart, Rector of St. Mary Magdalene Anglican Church, Napanee, officiating.

Interment was in Deseronto Cemetery.

MARACLE - Nelson Maracle of R.R. 1, Deseronto, died in Belleville General Hospital on Monday May 22, 1978 at the age of 82.

Born on Tyendinaga Reserve, the son of the late Jacob Maracle and the late Mary Brant, he spent many years in Aldershot, Ontario, returning to Tyendinaga eight years ago. He was married to the late Mary Grace Penn.

Mr. Maracle is survived by his stepson Calyton Maracle of Darlington and by nieces Mrs. Loretta Brant, Mrs. Mary Brant, Mrs. Ruth Brant and Mrs. Janet Maracle.

The funeral service was held on May 24, 1978 at White and Morris Funeral Home, Deseronto, with Rev. Ross Maracle of the Native New Life Outreach officiating.

Interment was at Christ Church Cemetery, Tyendinaga

Readying sloop for sailing race

NIALL CARNEY

continued from page one

Prince Edward County shore across from Trenton back in 1910, when Angus himself was just 17

It took him three years of work, love and sweat to bring the sloop to life again. Angus was small in stature, but not in dreams. His right arm was badly crippled by high explosive in World War I. He had never really worked with his hands before. As a librarian he had been more accustomed to handling books than hammers and saws.

Without the use of power tools, he removed the rotting keel with a hacksaw and put in a new oaken keel, handhewn with an adze. The 56 narrow oaken ribs were removed, new ones cut and steamed to the proper curvature, then brass-screwed to the planking. Rotten planks were taken out and new white cedar planking was tapered, steamed and clamped into place.

The Angus Mowat race will be sponsored by the local Yacht Club and the Canadian Yachting Association. Official entry or not, all Angus Mowat's friends will be cheering the red-sailed sloop to victory.

Deseronto Library Notes

If you are planning a trip this summer and want to 'see Canada first', come to the library and consult two of our new additions.

The book 'Outdoors Canada' offers colour plates of Canadian wild life, detailed instructions concerning camping and outdoor cooking, plus current maps of our national parks and wilderness areas.

'Heritage of Canada: Our Storied Past

and Where to Find it' tells Canadian history in an exciting way and then shows you where to go to relive it. Both books are beautiful volumes just to peruse.

For travel information in general come to see the library window display.

The next senior citizen film program is scheduled for 1:30 p.m. on June 16. Remember to put your suggestions in the lobby box.

Strange Way To Avoid A 'Newspaper' Hassle

For a man who professes that he does not intend to become involved in either a 'newspaper or streetcorner hassle' with the Chairman of the Public Utilities Commission, Deseronto's Mayor John Neal certainly goes about it in a peculiar way.

Just previous to Monday night's Council meeting, in the presence of the Councillors, the Town Clerk, two of the town's auditors, a representative from the Quinte Scanner and one from the Kingston Whig-Standard, and four or five interested spectators, Mayor Neal read a prepared statement, typed on the Town of Deseronto letterhead, in which he responded to comments made by PUC Chairman, Frieda Vick, at a previous Council meeting.

Mrs. Vick had objected to a 'premature' report in the Napanee Beaver which divulged financial transactions between the Town and the PUC, before they came before Council.

In his statement, Mayor Neal said: 'I do not intend to become involved in either a newspaper or streetcorner hassle' with Mrs. Vick, but in the light of her recent remarks in a newspaper interview, that quote 'The mayor and the clerk-treasurer are running the whole show in this town - doing anything they like - maybe it won't be for too long unquote.

'Usually I would not respond to such accusations but since the inference is that you gentlemen do nothing, which includes Councillor Vick, this I do defend. We have all worked hard for Deseronto and will continue to do so.

'As for Mr. Milligan, Mrs. Vick of all people should realize the necessity of the clerk-treasurer must be fully aware of all matters pertaining to the operation of the town.

'There is no secrecy involving honorariums to either Councillors, Reeve, Deputy-Reeve or myself. Anyone wishing to know this has only to ask. However I would like to point out that the PUC Commission voted themselves a 50% increase at the beginning of the year. I was not in attendance at this meeting.

'I will say no more on this subject, but I do resent the implications of the accusations - it is the same old tired one that has been levelled at every Mayor in Deseronto that I can remember.'

Questioned later, Mrs. Vick said that it would appear that the mayor is trying to take the blame off himself (for releasing PUC figures to the press before they came to Council) and trying to direct the blame to council members.

'This is not my intent,' she said. 'It's Council members I am concerned about. They should know the financial facts before the newspapers get them.'

Concerning the honorarium to PUC Commissioners and the chairman she said, 'PUC Commissioners get \$200 a year and the chairman gets \$250. We hold 10 regular meetings, several special meetings and some meetings for salary negotiations...totalling about 15 meetings a year. That works out to about \$13 a meeting. Councillors get \$25 a meeting. The 50% increase mentioned by Mayor Neal would bring us up to about \$22 a meeting. Mr. Neal himself suggested an increase for PUC members last year but the commission as a whole declined at that time. I am sure that if the Anti-inflation board and Ontario Hydro sanction an increase now, Mr. Neal will accept his share.'

Town auditors, present at Monday night's meeting, reported their approval of both the Town's and the PUC's financial statements for last year.

QTH...WHERE ARE YOU ?

Ham Radio Operators Have Own Language

88 to the XYL' gibberish to the uninitiated but to the ham radio operator, it means 'Love and Kisses to the wife'. For a girl friend it would be '88 to YL', she's not an X Young Lady yet.

Ham radio operators, the amateurs of the airways are a breed unto themselves. They have their own language and they like to chatter into the early morning hours, after the rest of us have hit the hay. They have a terrific sense of camaraderie. A signal travels 186,000 a second, the speed of light - and brings hams from around the world together quickly.

The Scanner talked to three local hams... Gordon Offord in Napanee, Harry Raby in Picton and a relative newcomer to the hobby, Neville Prowse

of Deseronto.

Gordon Offord is blind and has been since an accident took his sight when he was only nine. But it hasn't stopped him from doing most things he wants to do, including operating an amateur radio station.

He has worked as a photography technician, has travelled to both coasts and was a lumberjack. 'See my woodworking badge,' he said, holding up a hand with one finger missing. He repairs and tunes pianos, and recalls how he used to help the Treener brothers, blind piano tuners in Kingston, before he lost his own sight.

He was a machine operator in Toronto, and at the aluminum plant in

Who's Going to Know if You Report Neighbours?

If you put in a complaint about your neighbour's property not being up to standard, will you remain anonymous?

Deseronto councillors have been getting that kind of question from the voters and Council was asked Monday night to set down a policy on this.

'With one exception, all complaints have been kept confidential,' Mayor John Neal said.

'Council should stay out of it,' Councillor C. Zieman said, reporting on a symposium he had recently attended. The advice given was that council members should not even see the written complaints which are sent to Town Clerk Carman Milligan.

Mr. Milligan had drawn up a rough flow sheet, showing how complaints were handled from receipt of complaint, through inspection of property, notice of violation, hearing between Property Standards Officer and the owner, order to comply, service of order, registration of order, appeal of order, committee hearing, appeal to county court and hearing.

'It's a complicated procedure,' he pointed out, 'and the property won't be cleaned up over night. But it will work.'

To date, four notices have been sent out.

The new property standards by-law seems to be having some effect already. During the two-day clean up of the town early this month, 55 or 60 truckloads were removed compared with 35 last year.

Cockatiel found in County garden.

Cockatiels originated in Australia and, although they are now fairly well known throughout North America as pets, you don't exactly expect to find one wandering around in your garden. So Bill and Jessie Reid of Sophiasburgh were rather surprised to find one in theirs, about two weeks ago.

No one knows how the bird got there. It may have escaped out of a car, or from a house window. But the how will probably remain a mystery. Despite advertising, the Reids were not able to turn up the owners and it has gone to live with Louise Bowen on Nortport Road.

The Bowens call him Louie, but they aren't sure yet whether he is a male or

EDITORIAL

One of the easiest things in the world to do is to criticize what someone else is doing while doing nothing about it yourself.

It would appear that that is what has been happening in Deseronto where dances for teenagers have been concerned.

For the past three years, the Deseronto police have been conducting Friday night dances at the Deseronto School. Now that works out to what... 120 evenings of volunteer time to operate the program... or let's say at least 500 hours of somebody's unpaid time.

The dances have now been cancelled for the rest of the season. Principal of the school, G. Muir, gives as one of his reasons the lack of supervision and resultant damage to property.

In a letter to the editor of the Scanner last week, Jack Layfield, Deseronto's director of recreation pointed out that only about 5% of the young people are irresponsible. 'It is high time that parents, teenagers, and all citizens make a more determined effort to help curb this unnecessary vandalism so that the 90 to 95 % of law abiding youth of the town will not be deprived of facility use and penalized for the actions of a few

irresponsible young people. Eventually, as the volunteers in the community shy away from involvement in programs for young people, they might begin to realize they are the losers in the long run.

And in another letter to the editor, also concerning the cancellation of the dances, the writer says that 'many interested and co-operative parents have been totally unaware of any need for supervision'.

We find it difficult to comprehend that any 'interested and co-operative' parent whose children are attending the dances at the school, would not have made the effort to go themselves, once in a while, to see what the kids were doing and offer help if needed.

Mr. Muir has said that he wants to get together with the police and see what can be worked out.

How about all those 'interested and co-operative' parents getting into the action too. Let Constable Norm Clark know if you want to keep the dances going for your youngsters and that you're willing to lend a hand. You might even find you're having fun doing something with your kids on a Friday night.

Wants Repair Work on Driveways Done

There are still some Deseronto residents who are not happy with the conditions created by the reconstruction of Highway 2 last summer.

Monday night, Council received a letter from Wilfred O'Brien asking for consideration in correcting an exit/entrance problem for pedestrians in front of his property. The highway work left a steep grass embankment from the sidewalk to the new highway. In the winter, the sidewalk is not plowed making it difficult to gain access to the highway.

Mr. O'Brien suggests construction of cement steps with a supporting hand rail.

Reg Dawson appeared at the council meeting in person to find out when the highway correction work would be done to his property.

'Nothing has been done and something was to be done by the end of June,' he said. 'I can't use my garage.'

'Plans are to have it done while the work is being done on Main Street,' Deputy Reeve B. Johnston said. 'Greer and Galloway's report was accepted by

council and the Ministry of Transport and Communications approved. \$23,000 has been allocated for the repair of driveways.'

'Do you have any idea of what is to be done,' Mr. Dawson wanted to know.

'I could pull out the report,' Johnston said.

Mayor John Neal said he thought the contractors were to contact owners of all the properties involved and said the contractor would be asked to speak to Mr. Dawson.

You seen them government ads telling us farmers to get into sheep? 'Sheep make sense' they tell you. I'll agree to that - they sure make more sense than most government schemes. Weren't too long ago when the government boys was pushing cow call operations, and you know where they pushed them - right on to the heap. I know quite a few fellers as always plan to do the opposite to what the government boys is suggesting. They seem to do right well too.

Myself, I always liked a good roast of lamb, but you always have to be diligent serving it to Sunday guests. Lot of folks round here won't eat it no way. Course, if you've never tasted home raised fresh lamb and was thinking of the frozen Aussie stuff what tastes more like old mutton to me, I can see your point. Always did strike me funny that all these eight year old ewes went off to the slaughter house along side the lambs, but you never do see no mutton in the stores.

Never figured out just why they figger ewes is shot by the time they're eight. Why I remember one old timer as was the best sheepman I ever knew. Once asked him how long he kept his ewes. 'Till they been dead about three days' he said.

Anyways, lamb ain't nothing new to me and Elma. We always have figgered on having a couple of woolly lawnmowers around the place. Sure makes it easier on the old back. But this here goat as I got up to Bloomfield the other day was something else. Real impressed I were. Reckon I know where my young billies is going in future. Now Elma ain't altogether happy about it yet. She always makes kind of pets of them

young critters, and she says she don't know how to cook it. Why my Elma can cook real good, she wouldn't have no trouble at all with tender young meat like that. Reckon it's just an excuse, so's I'll have to talk her around. Can't see the difference myself. She always knew when we sold off them young billies that they was a roast on legs to the fellers as bought em. Still wimmen's funny that way.

Going back to them sheep now. Reckon there's folks as likes em and there's don't. I know more'n one chap who says 'Don't talk about sheep to me' on account of they're devils to fence. But there's them as likes es too. Reckon it's the same as any livestock. But sure as shooting, if'n the government decides to like em, the sheep farmers had better watch out.

Differences in cancer death rates not associated with fluoridation

Now that all the dirt and pollutants have been taken out of Deseronto's water and it is clean enough to drink straight from the tap...the next question is what about adding something to it.

It is expected that the question of fluoridation will be put to the voters of the town at the next municipal election this fall.

Fluoridation has its supporters and its opponents. The most recent support comes from a Health and Welfare Canada report, which concludes that the differences in cancer death rates between municipalities are not associated with water fluoridation.

The report also shows no significant

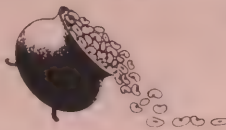

differences between death rates from all types of cancer within the same municipalities before and after fluoridation.

The study, entitled "Fluoridation and Cancer—An Analysis of Canadian Drinking Water Fluoridation and Cancer Mortality Data", is based on data from Statistics Canada which has been analysed for the Health Protection Branch.

Today small amounts of fluoride are added to the drinking water supplied to more than 35 per cent of the Canadian population in order to decrease the incidence of tooth decay and lower dental care costs. However, some doctors and scientists have suggested that epidemiological data show the addition of fluoride to potable water increases risk of cancer. Official sources whose data have been used to support such statements claim their data have been misinterpreted.

To determine whether Canadians are exposed to a risk of cancer from the fluoride added to their drinking water, cancer mortality statistics from 79 groups of municipalities were examined closely. Comparisons of death rates from cancer were made between municipalities served with fluoridated water and those served with non-fluoridated water. In addition, comparisons were made for different time periods between 1954 and 1973. All general and malignant tumors and various specific tumor sites were included in these comparisons.

The County Cupboard spills the beans

COOKING WITH WINE

The Alcohol

On your kitchen shelves are some artificial flavouring extracts with a much higher alcohol content than there is in wine. Because you use so little of these extracts in any one dish the alcohol level doesn't matter.

When you use wine the important thing to remember is that all the alcohol disappears in cooking. Therefore, wine-cooked dishes are as acceptable for children and abstainers as are milk-cooked dishes.

Holland House is a brand of imported full-strength wines which have been especially selected for use in cooking because they are rich in body and keep longer than table wines. These wines are pre-seasoned: each cup contains one teaspoon of salt. Because of this saltiness, neither children nor adults are even tempted to drink any of it and the bottles of cooking wine are as safe on your kitchen shelf as the bottles of vinegar and salad oil.

The Flavouring

There is no substitute. It is an ingredient in your recipes, a seasoning which stresses certain food flavours and brings out the richness of others. It is by adding a little wine to everyday hamburgers, or to an ordinary soup, or to a stew or pot roast that you discover just what exciting and invaluable allies you have in those bottles of cooking wines.

Lighter and more delicate foods such as veal, lamb, chicken, tuna, pork, rice, and fish, are usually best accented by white wine in cooking. The richer foods like beef, liver, duck, and spaghetti sauce need the more robust red wine. Sherry will flavour cheese dishes, tuna casseroles, consommé, fish soups, vegetable dishes, almost anything.

Remember two things. First: because there is already salt in the wine, do not add any more salt until you have tasted the mixture. Second: dishes cooked with wine taste even better if allowed to get cold, then reheated.

The Food Value

Although in cooking one does not use large quantities it is interesting to note

that a 26-oz bottle of wine has the same caloric value as a quart of milk, a pound of bread, or two pounds of potatoes. In other words, you can estimate about 25 calories per ounce of wine used in your cooking, or 50 calories per ½ cup.

Quick Jambon a La Creme

Small onion, finely chopped, 1
Margarine, 4 tbs.
White cooking wine, ¼ cup
Tomato soup, condensed, 1 can
Tabasco sauce, ½ tsp.
Sour cream, ¼ cup (or use Quark)
Ham, cooked, 6 to 8 slices
Parsley, chopped

— Sauté the onion in the margarine until limp. Add the wine and condensed soup and blend. Cook, stirring, until it reaches the boiling point.

— Add the Tabasco and simmer several minutes.

— Add sour cream or Quark and blend. Add the ham slices and heat thoroughly in the sauce.

— Sprinkle with chopped parsley and serve with rice or noodles. Serves 3 or 4.

Historical Society Plans Spring Tour

The Lennox and Addington Historical Society has planned a Spring Historical Tour for Saturday, June 24. The event is the 'wind up' for the year and has been very popular in past years.

This year the tour ventures towards the west into Hastings County. The route is to Deseronto and a look at that community; then into the Mohawk Reservation and out at Shannonsville; Marysville on Highway 502; to Mount Pleasant and Selby where they stop for lunch. Then to Sharpe's Corners and Roblin; likely a detour east towards Croydon; back to Roblin and then down the west side of the Salmon River for a space to Forest Mills, Kingsford and Lonsdale; then back via Empey Hill to Napanee.

- IF YOUR INCOME IS MODEST

THIS IS OF INTEREST TO YOU

The Council of the Town of Deseronto has asked the Ontario Ministry of Housing to determine the interest and need for new rent-geared-to-income accommodation in your community. If there is a need, rent-geared-to-income accommodation will be developed by the Ontario Housing Corporation at the request of your Municipal Council.

Questionnaires will be distributed to tenant families and senior citizens as part of a survey to determine the interest in this type of housing.

ONLY BY COMPLETING A QUESTIONNAIRE CAN YOU HELP TO DETERMINE WHETHER THERE IS A DEMAND FOR RENT-GEARED-TO-INCOME ACCOMMODATION.

For tenant families and senior citizens interested in this type of accommodation, additional information and questionnaires may be obtained at:

Town of Deseronto
Municipal Office
331 Main Street
Deseronto, Ontario

PUBLIC MEETING

Canada-Ontario Rideau, Trent-Severn Advisory Committee

KNIGHTS OF COLUMBUS HALL
47 STELLAR CRESCENT, TRENTON

THURSDAY, JUNE 15, 1978

7:00 P.M. TO 9:00 P.M.

Open House at 6:15 P.M. to view displays.

Your reaction is invited to the CORTS 'Greenpaper', detailing propositions on water management; commercial development; land-use, development and heritage conservation; public land management; and pollution abatement in the CORTS corridor; and the Interim Land Use Guidelines Report, which recommends 'use without abuse' in the corridor.

Quinte News Round Up

IF YOU DON'T WANT DUMP...SAY SO

Under a joint federal provincial nuclear waste program announced last week, the Ontario Government will be able to veto any site proposed for a permanent nuclear waste disposal system.

Ontario's Minister of Energy Reuben Baetz told a news conference that the provincial government might be taking an added risk with the electorate by taking on such a responsibility.

He said there are now about 1,600 possible locations in the province known to contain the type of rock suitable for storing radioactive waste but said the number will be reduced in the next three years to between 6 and 10 sites, where intensive drilling will take place.

So, a word of advice to Provincial voters...if you don't want a nuclear dump in your area let Reuben Bates know right now.

DIRECTORS MEET

The feasibility of opening up the Wellington Harbour...the status of the sewer project in Wellington...a booth at the County Fair to advise on Great Lakes pollution control advancement...these were among matters discussed by the directors of the Prince Edward Chamber of Commerce recently.

Things accomplished have been the printing and distribution of county brochures, installation of signs promoting the county in Napanee, and a decision to purchase decals to inform tourists of fair exchange on U.S. funds.

FIRST TENANT

Napanee's 100-acre industrial park, purchased by the town last January for \$600,000, has its first tenant...a company to be operated by James Prue of Napanee.

ANOTHER EXTRAVAGANZA

'Belleville to grant freedom of the city to CFB Trenton', reads the heading on a press release from the Belleville Centennial promoters.

A scroll incorporating the Belleville crest and the Canadian Forces Base Trenton crest has been prepared and will be presented on June 28 by the mayor and city aldermen. There'll be a parade too, a procession of base personnel marching to a single drum beat, the uncasing of the colours, fixing of bayonets and a march past with colours flying.

The mayor, Ben Corke, will be reading a proclamation granting the freedom of the city to the base as long as the waters of the Bay of Quinte embrace the shores of the said city.

We're not sure about that embracing

DAVID MACKAY

Insurance Agency Inc.

P.O. Box 876

Belleville

966-5740

part, but the Bay is likely to be there for quite a while yet, so, unless the city of Belleville moves away, the grant should be in effect for many years to come.

YOU CAN FILL THE CAR NOW

The Provincial Government has had a change of heart...they're not counting heads at the Provincial Parks now.

Increases in fees this year included a charge for each occupant of the vehicle, but this was causing long lineups at the park gates.

To save all this complicated mathematical computing and the complaints, they've eliminated some fees and altered others. Daily vehicle permits of \$1 are now \$2 but you don't have to pay an additional 50 cents for

each occupant in the car. So load up the kids and all the neighbours too.

SHARPEN UP THAT AXE

The ARDA program, is going to contribute \$500,000 to the private land forestry assistance program. Purpose of the program is to assist rural landowners in establishing or expanding their woodlots for future timber and wood fibre supply and to convert submarginal agricultural land to long-term forestry and related uses.

Want to know more about it? Get in touch with your local office of the Ontario Ministry of Natural Resources.

...AND SOMETHING ELSE FOR FARMERS

University students are going to recruit crews of local young people and arrange work agreements for them on farms in the area. They'll be available to assist with such work as painting, clean up, general repairs, haying and harvestings...at a fee of \$90 a day for a crew of five. At the end of the program, farmers will get back \$35 for each day they have used the service.

This program is coming to you courtesy of the Ontario Ministry of Agriculture and Food.

READ ANY GOOD LABELS LATELY?

A basic guide to the Who, What, Where, When and Why of Shopping Canadian.

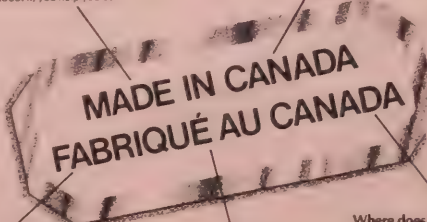

Why should you Shop Canadian?

Every time you buy something made in Canada, you help keep a Canadian working. You help keep Canadian money inside Canada. You help to expand and strengthen Canada's economy.

When you think about it, you help yourself.

When should you Shop Canadian?

Whenever you're satisfied that the product or service you need is:
(A) made or grown in Canada and
(B) of equal or better value and quality
That's not just good advice...it's good sense.

What is made in Canada?

Just about everything you need to help you live the life you want. As the saying goes, we have no bananas, but we do have Apples, Bandages, Cranes, Drills, Elevators, Furniture, Glassware, Holiday resorts, Imulation Jewellery, Kitchen appliances, Lumber, Machinery, Newspapers, Office equipment, Potatoes, Quilts, Rope, Steel, Tires, Umbrellas, Vaccines, Wines, X-Ray equipment, Yarns, and Zippers. Everything, in other words, from A to Z.

Who should Shop Canadian?

Every day, most of us have the choice. Whether we're buying groceries for the home or supplies for business, farm or industry. If each of us added only \$10 a week to Canadian made purchases, Canada would be over 10 billion dollars better off in just one year. Who should Shop Canadian? You should.

Where does it say Made in Canada?

Sometimes it doesn't. Sometimes a sign says "Produced in P.E.I." or "B.C. Apples" or "Fabrique au Québec" or "Made in Manitoba" or "New Brunswick Sardines" or "Grown by Saskatchewan Farmers" or "A product of Alberta" or "Fresh from Newfoundland" or "Manufactured in Ontario" or "Nova Scotia Lobster". The point is, if you take the trouble to find out, you can usually tell. And if it's made anywhere in the ten Provinces or the Territories, it's made in Canada.

Shop Canadian
Magasins à la canadienne

This ad was made in Canada. Making this ad employed for a period of time a writer, an art director, an account executive, a media buyer, a media planner, a typesetter, an engraver, a platemaker, a traffic operator, several switchboard operators, various mailmen, shoppers and secretaries, publication reps, publication make-up people, not to mention all their various suppliers. Everyone of these people lives and works in Canada.

THE

NEARLY NEW SHOP

Located at the Airport on the Tyendinaga Reserve will reopen on SATURDAY JUNE 17. It has been taken over by the Mohawk Firemen's Wives' Auxiliary. There will also be a BAKE SALE on opening day. On June 17th the Shop will be open from 10 a.m. to 3 p.m. Every Saturday after that it will be open from 10 a.m. to 12 noon.

TENDER

THE HASTINGS COUNTY BOARD OF EDUCATION

Sealed Tenders for the purchase of the former Belcrest Public School, Part Lot 37, Con. 1, Township of Sidney, County of Hastings, will be received by the Superintendent of Business, 156 Ann St., Belleville, Ontario, until 3:00 p.m., Wednesday, July 6th, 1978. Envelopes must be marked Tender No. 8-13.

The premises will be open for inspection from 2 to 5 and from 7 to 9 p.m., Wednesday, June 21st, 1978, and from 2 to 5 p.m., Saturday, June 24th, 1978.

Highest or any tender not necessarily accepted.

In addition, the Board will consider legitimate requests from Municipal, Community Organizations, etc., to acquire the property at a price to be negotiated. The consideration will be based on the submission of a formal letter stating the intended and continuing use.

For any further information, contact the Superintendent of Business at (613) 966-1170.

BAHA'I FAITH

QUESTION:

What is the Baha'i attitude towards other religions?

ANSWER:

It accepts the God-given authority in each of them. Baha'is believe in the Almighty God and accept the Holy Books of all His Messengers. The Baha'i Faith regards the religions of the world as different stages in the history and development of one religion. Baha'is are taught: 'Consort with all peoples, kindred and religions of the world with the utmost truthfulness, uprightness, faithfulness, kindness, good-will and friendliness.'

Discussions every Friday at 8 p.m.

Ham Radio Operators Chatter Into Early

Continued From Page 1

kingston and was 'the biggest liar' at Gibbards furniture factory in Napanee because...I made mahogany out of basswood by putting on the veneer.'

'Sure, I've been upset at times about my loss of sight,' he said, 'I might have wanted to poke a guy in the nose and couldn't see where it was but I've got more sense now.'

THAT'S FOR ME

Gord got his first amateur radio operator 'ticket' in 1957. He got interested in the hobby when he was visiting his sister in Saskatchewan and heard a voice coming over an AC-DC mantle radio set. 'My sister said it was coming from the ham next door so we went over and I had my first three-way conversation with Skagway, Saskatoon and Alaska and said, 'that's for me.'

'When we hear, 'This is Napanee, the hub of Canada, Jessie James calling,' we know that's Gord,' says Harry Raby of Picton.

Harry got his first amateur ticket in 1962. He was with the RAF from 1939 to May 1946, and got his morse code at an RAF wireless school in England. During the war he spent some time in Canada...out west, and in Picton...later serving in the far east.

His first radio set was an old 'cat's whisker', a little smaller but thicker than a dime. He got it for 25 cents.

Although wireless was his trade with the air force, he didn't pursue ham radio until about 1958.

To get the first amateur certificate, you have to be able to do 10 morse code words a minute, answer questions, draw diagrams of radio equipment and be able to explain their functions.

'The Morse came easy,' Harry said, 'But the theory I knew nothing about.'

Anyone wanting to get a 'ticket' should 'swot up on your math,' he advised. There's a fair amount of mathematics involved.

'The questions on the test centre around transistors,' he said, 'since most commercial equipment is solid state.'

The first licence permits Morse code anywhere on amateur bands but restricts microphone privileges. After 12 months on the air, you can take another exam and get an advanced amateur standing. For this, you need to have 15 words a minute morse code and when you get the certificate you have full privileges of Morse code, teletype, amateur TV and microphone.

Your licence covers one base, one mobile and one portable.

Harry waited until 1976 to try for the advanced certificate, but he wouldn't advise others to wait this long. 'I had to restudy all over again,' he said. 'You should try for the advanced 12 months after you get your first ticket while it's still fresh in your memory.'

Neville Prowse of Deseronto took a course at Loyalist in Belleville and got his ticket last June. To date, he has been restricted to Morse code, but after six months there is an endorsement to go on microphone.

He's been interested in radio all his life. 'I used to build sets when I was a kid,' he said. 'I worked in a transformer factory during holidays and when they were throwing old stuff out, I'd have it to make up radios.'

His father was with the Signal Corps in World War 1 and when Neville did a two-year stint in the British Army, he was with the Royal Signals. He learned the Morse code from his father, and operated an amateur radio station in Germany, where he also belonged to a club.

He came to Canada in 1953 and always wanted to get his ticket but was involved in a lot of other things.

FOULED-UP BANDS

He did have a CB radio but it's gathering dust in a drawer now. 'It was fine initially,' he said, 'but so many are allowed on it now. There are no tests and they are fouling up their own bands.'

He was enthusiastic about the terrible camaraderie among radio hams. 'They'll do anything for you...lend you equipment or tell you where to get it.'

'Harry's to be thanked for my equipment,' he said. 'I was looking around for equipment and Harry knew some available in Concession because the operator had died. I got it very reasonably.'

'For me, the greatest thing is the teletype,' he said. 'I can use it on two metres but I'm still trying to get mine going.'

Very few hams have teletypes. Harry Raby has one and delighted in showing us how the radio signals could be wired up to type the message as it came in.

Harry says it's a time-consuming hobby. 'I usually go to bed about 3 a.m. Australia comes in about 5 a.m. but I'm too tired to operate by that time.'

What's the most important part of the equipment? Hams agree that a good antenna is 'everything'.

'There's no use having a \$1,000 piece of equipment and a lousy antenna,' Harry said.

Operation of the stations doesn't provide interference for neighbours because all transmitters are required to

Blindness hasn't deterred Gordon Offord of Napanee from doing most of the things he's wanted to do, including operating a ham radio station.

have filters to get rid of the 'harmonics'.

SUN SPOTS INTERFERE

Right now, the hams are getting a lot of interference themselves...because we're into a sun spot cycle. Cycles occur about every eleven years and the sun flares send out magnetic rays which neutralize radio signals on earth. The neutralizing effect may last for an hour, or up to two days.

'TV signals follow the line of sight,' Harry explained, 'but radio goes on a bounce up and back. But it can't get past a neutralizing area.'

What do the hams chatter about?

'You have to be careful what you say, thousands of people could be listening to the conversations,' Harry said. 'There are a quarter of a million hams in the United States and Prince Edward County alone has about 20.'

'The Government is very strict if there's any misdeemeanor. You can't use the name or price of any product...you can't use the radio for any commercial advantage.'

'I was talking to a ham in Africa and he wanted to know where I had been stationed there during the war. But I wouldn't tell him. I might still be giving secrets away.'

Another question that came up was how do the hams talk to their counterparts in foreign countries. The Morse code itself is international but the words it spells aren't.

'Most hams have a good background in English and can make themselves understood,' Neville said. 'And we have a lot of our own vocabulary. For example, QTH means what is your location, QRL are you busy.'

Members of the Quinte Amateur Radio Club have their own time to get together on the air, every Sunday at 1900 hours. Other groups have similar time slots set up.

It takes about 12 months to qualify for the first amateur ticket but some people do it faster. One woman in Napanee learned in three months because she was an experienced X-ray technician.

If you'd like to know more about this fascinating hobby, you can write to the Canadian Amateur Radio Federation Inc., P.O. Box 356, Kingston, Ontario, K7L 4W2.

Or make an appointment drop in on a ham in your neighbourhood. Hams are delighted to show off their sets and get you enthused too.

Don't believe what they tell you about immigration.

A lot of people have some pretty strange ideas about Canada's immigration law. And, as a result, a lot of people suffer from believing them. The fact is, the most reliable information comes from us. In other countries, we're in Canadian Government visa offices. Here at home, it's your Canada Immigration Centre.

If you know someone who'll have to pass through Canadian Immigration in the near future, you'd be doing them a favour by pointing them in our direction. Especially now that there's a new immigration law.

Now, the new law doesn't mean a lot of changes for the average immigrant or visitor. Here, nevertheless, are a few things that might affect you or someone you know.

From now on, immigrants and those visitors who come here to work or study must make all immigration arrangements before arriving in Canada. No one may change his or her status while inside Canada.

Remember that money can't buy your way into Canada. All the help you need is free at any Canadian Government visa office or Canada Immigration Centre.

Canadian immigration officers do not discriminate on the grounds of colour, race or religion. Ever.

A new adjudication system gives

greater protection to the civil rights of people involved in immigration proceedings. And deportation will no longer be the only possible penalty. There are now less drastic alternatives for minor infractions of immigration law. The new law does not make immigration easier, but it does make it more predictable. If you need to know more, ask at a Canada Immigration Centre.

If you know someone abroad who needs information, tell them to contact their Canadian Government visa office before they make a move. That way, they'll know exactly where they stand when they step off the plane.

CORNUCOPIA

By Ann McGill

Twenty-five years ago when I lived for a short period in Toronto it was probably the least interesting city in Canada. Aside from the fact that, as the old saying goes, you could roll a bowling ball down Yonge St. and hit neither vehicles nor humans, it was a cultural and visual desert; it had neither personality nor character.

I am now a repentant Toronto fan. Walking, particularly in the ethnic areas, and even in some of the shopping areas, is a real delight. There is no doubt that immigration has done more to improve Toronto than any other factor.

The ethnic community has given us the fascinating Metro Toronto Caravan which this year takes place from June 23 - July 1 with a host of good things: Gourmet food and drink, continental entertainment and handcrafted souvenirs are featured in 58 different pavilions representing the city's many cultures.

You'll find Greek dancing, German brass bands and beer garden, the Chinese Lion's Dance, limbo dancers and buccannars from the West Indies, an Irish coffeehouse, London Bobbies, mariachis from Mexico, an Italian cabaret and Russian balalaika music.

Other attractions include the Caravan Ball and some of the best ethnic food delights you will find anywhere.

The very popular Mariposa Folk Festival will be held, as usual, on Toronto Island Park June 23 to June 25. This is a feast of traditional and contemporary folk arts involving musicians, dancers and crafts people from a variety of cultural backgrounds. The programme is family oriented and includes ethnic folk dancing, contemporary music and presentations in North American, European and many other folk traditions.

NEW STORE HOURS

Monday - Friday 7 a.m. to 9 p.m.
Saturday - 8 a.m. to 9 p.m.
Sundays and Holidays
12 Noon to 9 p.m.

August 1 to 7, Toronto goes West Indian with the celebration of Caribana '78. Highlights of this popular festival are the masquerade parade on University Avenue and a picnic at Toronto Island Park. There will be over 2000 costumed participants and several costumed bands in the parade.

Floating nightclubs on ferries in Toronto harbour, complete with bars and steel bands, operated the week before Caribana Weekend. Stage areas offer music, dance, drama and poetry reflecting the culture of the West Indies; booths exhibit handcrafted goods and sell spicy Caribbean food while musicians and dancers wander around putting on impromptu performances - much like the Mardi Gras in Rio de Janeiro.

Toronto has scores of other events and attractions in summertime and, indeed, all year. A week in Toronto is now a very pleasant experience, as long as you can come back to the Bay of Quinte, of course.

Contract is given for cable repair.

A Foxborough firm has been given the contract for placing the new hydro cable under the water from Point Anne to Prince Edward County.

Work has already started on the three-cable, 960 meter long line. Each reel weighs about 10 tons.

Work is to be completed by the end of June.

Come to dinner at Stone Mills House

The small & friendly restaurant with a beautiful view

Cockatiel Settling Into New Home

Continued From Page 1

female. Louise Bowen has guessed that he is a male. She's bought a book about cockatiels and. The book says males like mirrors. He certainly does. And females like toys they can mother. But he didn't want any of the toys. He didn't like his swing at all," she said.

Louie has a pale yellow face, almost orange, with two big red spots like rouge. He's got a high crest on his head, a long sweeping tail, and a wide wing span, so he needs a fairly large cage to be comfortable. After he gets a little more used to the Bowens, he'll be able to fly around the house.

"At first we thought his wings had been clipped," Mrs. Bowen said. "He just hopped around the garden. That's why the Reids were able to catch him easily. But there's no sign that his wings are clipped."

"He couldn't have been out in the garden very long, the wild birds or the cold would have finished him."

She's had canaries and budgies in the past, but never a cockatiel. "Even before I knew I could have him, I knew I had to find out more about him, so I got a book about cockatiels," she said.

She lent the Reids her budgie cage to keep him in while they advertised for his

owners. But she bought a big cage for him when she brought him home. Louie was lured into a change of quarters by a handful of sunflower seeds.

Another of his favorites is celery which has to be washed, dried and brought to room temperature for him. He's not talking yet but has picked up a "tune" they've been whistling at him. And he can make a lot of noise. "At times he sounds like a killdeer. He can really shriek," she said.

Wherever he came from, Louie has landed in a nice safe haven.

CORTS Meeting To Get Public Reaction

'Preserve our natural resources' has become, in recent years, the hue and cry of more than just the most ardent conservationists.

People everywhere are realizing that unrestrained exploitation of land and water, summed up in the principle, 'more development is good,' is no longer environmentally and socially sound or sensible.

The CORTS Interim Land Use Guidelines, a 22-page report outlining development potential and land use issues in the Rideau, Trent-Severn waterway, reflect this current concern.

What the guidelines advocate, however, is not a moratorium on development but 'use without abuse' as the means to resolve the environmental and aesthetic problems caused by insensitive development. They reflect the CORTS goal of establishing the waterway as a recreational, pleasant and interesting environment.

'If current trends continue,' state the guidelines, 'the ultimate demand for recreational use and development in the corridor will be many times greater than the ability of the waterway to sustain such use.'

Decisions are required to protect the

resources the corridor represents, and 'increasing emphasis will have to be placed on proper management,' the guidelines stress.

The report is intended to 'guide' development and to analyse the area where development constraints and special land use controls are needed.

To that end, the report defines 'preferred development themes' or 'concepts' for each of the system's five sectors, based on both the present character and the potential uses in each area and on recommendations made in the CORTS Study Reports of 1971 and 1973.

In the Trent system, defined as a 'traditional cottaging, recreational and rural' area, the report notes cottage conversion and strip shoreline developments have restricted public access to the shoreline.

Further development should be restricted to public use opportunities like picnic grounds, campgrounds, resorts and other commercial ventures 'to ensure further residential development does not block off the remaining stretches of open shorelines.'

The guidelines for the Trent sector of the CORTS system reflect a concern with protecting natural and historically significant areas. They suggest the areas should be subjected to conservation and historical study, before intensive development is approved. They propose that no development in narrow channels be permitted.

The Quinte sector can accommodate more intensive, recreational and residential development because it possesses good transportation links, adequate social and municipal services

and a wider resource base; the size of Lake Ontario and water quality being two components of this base.

The report recommends, however, that major residential and industrial development in the Quinte region take place as extensions of the cities to minimize impact on local, rural municipalities and that historical, natural and scenic areas such as the Sand Banks and Bath be protected through implementation of aesthetic controls. Shoreline areas are, as in other parts of the system, ecologically sensitive, the report states.

Although they are intended to be only suggestions to municipalities, the CORTS report makes a strong case for implementation of the guidelines into municipal official plans, consents granted by committees of adjustment, subdivision approvals, development agreements and zoning by-laws.

The CORTS Advisory Committee, which comprises 10 members from throughout the system, is seeking public reaction to the guidelines at its public meetings this summer. One such meeting is scheduled for tomorrow night, June 15, in Trenton.

Deseronto Council Briefs

*** This is a mighty small piece of paper for all we've been through', Deputy Reeve B. Johnston commented when Monday night's Deseronto Council meeting was presented with a short letter from the Ministry of the Environment informing council that water samples have been collected throughout the town and all samples are free of pollution indicator bacteria. On May 30, the boil order was terminated. The letter was dated May 31. Radio stations received notification on May 30.

*** Stores in Deseronto will be open for regular business hours on July 1. Council passed a special by-law to allow the holiday opening for this one year because of the boat races scheduled for that weekend.

*** The police report for May showed 164 hours of overtime. There were three reportable motor vehicle accidents, 13 charges under the Criminal Code, 8 under the Liquor Control Act, 5 under the Highway Traffic Act and one under the Juvenile Delinquents Act. Police investigated 10 complaints and answered 195 other calls.

*** Six picnic tables have been purchased for Centennial Park and permission has been given to the Free Methodist Church, Napanee, for use of the park on June 22.

TOWN OF DESERONTO

AUDITORS'

AUDITORS' REPORT

The Members of Council, Inhabitants
and Ratepayers of the Corporation of
the Town of Deseronto

We have examined the 1977 consolidated financial statements of the Corporation of The Town of Deseronto and its local boards. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of The Corporation of The Town of Deseronto and its local boards as at December 31, 1977 and the results of their operations for the year then ended in accordance with accounting principles generally accepted for Ontario municipalities applied on a basis consistent with that of the preceding year.

THE CORPORATION OF THE TOWN OF DESERONTO
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1977

1. ACCOUNTING POLICIES

(a) Statement of Revenue and Expenditure

This statement reflects the revenues and expenditures of the revenue fund and the following local boards and municipal enterprises:

Deseronto Public Library Board
Deseronto Community Recreation Centre
Deseronto Water Supply System

(b) Statement of Capital Operations

This statement reflects the capital expenditure of the municipality to be recovered from the general municipal revenue of the municipality and its local boards and municipal enterprises as described in Note 1(a).

(c) Balance Sheet

This statement reflects the assets and liabilities of the revenue fund, the capital fund, reserve funds and local boards and municipal enterprises as described in Note 1(a).

(d) Fixed Assets

The historical cost and accumulated depreciation of fixed assets is not reported for municipal purposes. Instead, the "Capital Outlay To Be Recovered in Future Years" which is the aggregate of the principal portion of unmatured long-term liabilities, capital funds transferred to other organizations, and the cost of capital projects not yet permanently financed is reported on the "Balance Sheet".

REPORT

1. ACCOUNTING POLICIES - continued

(e) Municipal Enterprises

Municipal enterprises are those activities whose costs are substantially recovered from service charges on the users. The enterprises of this municipality whose revenues and expenditures have not been consolidated in these financial statements are:

Deseronto Public Utilities Commission
Hydro-Electric System
Deseronto Cemetery Board

(f) Charges for Net Long-Term Liabilities

Debt retirement costs including principal and interest are charged against current revenues in the period in which they are paid. Interest charges are not accrued for the periods from the date of the interest payment to the end of the financial year.

(g) Trust Funds

Trust funds administered by the municipality amounting to \$29,298 are only reflected in the "Trust Funds, Statement of Continuity and Balance Sheet" and are not included in these financial statements.

2. CHANGES IN CONSOLIDATION

The assets, liabilities, revenues and expenses of the Deseronto Water Supply System were consolidated with those of the Corporation for the first time at December 31, 1977 whereas no consolidation took place in prior years. Accordingly, the comparative figures for the year ended December 31, 1976 have been restated to incorporate the assets, liabilities, revenues and expenses of the Deseronto Water Supply System for that year. As a result of this change in the basis of consolidation, the accumulated net revenue of the Corporation at January 1, 1977 was increased by the accumulated net revenue of the Deseronto Water Supply System and which amounted to \$16,275.

3. ONTARIO HOME RENEWAL PLAN LOANS

During the year, the Corporation received an Ontario Home Renewal Plan Grant of \$35,000 and of this amount, \$1,562 was transferred to the revenue fund for administration costs and \$23,535 was loaned to inhabitants in accordance with this programme. A further amount of \$7,803 has been committed to inhabitants.

Of the total loans receivable from inhabitants of \$23,535 and the commitment of \$7,803, \$19,215 will be forgiven over a period of 5 years provided that certain conditions are complied with. The remaining repayable portion of \$11,923 bears interest at an average rate of 6% and is repayable in blended monthly instalments of principal and interest of \$110.

All loans under this programme are secured by registered liens on the properties of the borrowers.

4. NET LONG-TERM LIABILITIES

(a) The balance for net long-term liabilities reported on the "Balance Sheet" is made up of the following:

	1977 \$	1976 \$
Total long-term liabilities incurred by the municipality including those incurred on behalf of former school boards, other municipalities and municipal enterprises and outstanding at the end of the year amount to	323,772	338,624
Of the long-term liabilities shown above, the responsibility for payment of principal and interest charges has been assumed by others for a principal amount of	(174,000)	(184,000)
Net long-term liabilities at the end of the year	149,772	154,624

(b) Principal and interest payments on the net long-term liabilities reported in (a) above of this note are as follows:

	Principal \$	Interest \$
1978	5,243	12,557
1979	5,649	12,119
1980	6,173	11,618
1981	6,716	11,133
1982	7,280	10,571
1983 - 1987	46,305	42,700
1988 - 1992	45,476	21,722
1993 - 1995	26,930	4,680
	149,772	127,130

5. CHARGES FOR NET LONG-TERM LIABILITIES

Total charges for the year for long-term liabilities were as follows:

	1977 \$	1976 \$
Principal payments including contributions to sinking funds and to the Ministry of Environment Debt Retirement Fund	4,852	4,476
Interest	12,962	13,339
	17,814	17,815

The total charges shown above were paid from general municipal revenue of the municipality and are included in expenditure on the "Statement of Revenue and Expenditure" classified under the appropriate functional headings.

6. RESERVES AND RESERVE FUNDS

(a) During the year, \$16,000 was credited directly to reserve funds without being recorded as revenues and expenditures of the "Revenue Fund". Major sources were:

	1977 \$	1976 \$
Income from investments	307	101
Subdivider and developer contributions	1,750	2,750
Ontario Home Renewal Plan Grants	33,438	-
	35,495	2,851

(b) The total balance of reserves and reserve funds is \$114,438 and is comprised of the following:

	1977 \$	1976 \$
Reserves		
For working capital	64,852	64,852
For capital expenditures	10,319	-
Reserve Funds		
From contributions by subdividers	5,829	3,772
Ontario Home Renewal Plan	33,438	-
	114,418	68,624

7. ACCUMULATED NET REVENUE (DEFICIT) AT THE END OF THE YEAR

The balance in the revenue fund at the year end is available to balance (to be added to) the levies of the following classes of ratepayers.

	1977 \$	1976 \$
General ratepayers	52,786	27,923
Designated ratepayers	12,176	383
School board ratepayers	1,811	(1,015)
Region or county ratepayers	522	185
	67,293	27,476

8. LIABILITY FOR VESTED SICK LEAVE BENEFITS

Under the sick leave benefit plan, unused sick leave can accumulate and employees may become entitled to a cash payment when they leave the municipality's employment.

The liability for these accumulated days, to the extent that they have vested and could be taken in cash by an employee on terminating, amounted to \$15,810 at the end of the year. No provision has been made for this liability.

9. CONTRACTUAL OBLIGATIONS

(a) Sewage Service System

Under date of February 3, 1969, the Corporation passed a by-law Number 1618, whereby it entered into an Agreement with Ontario Water Resources Commission, for the provision of sewage service to the Corporation of The Town of Deseronto. Under the terms of this Agreement, Ontario Water Resources Commission have agreed to supply sewage services to the municipality and the municipality has agreed to pay Ontario Water Resources Commission for this service as follows:

1. A gallonage charge which will amount to approximately \$72,000 in 1978
11. Plus all sums imposed as "frontage" or "connected" charges.

(b) Water Service System

Under date of March 13, 1974, the Corporation passed a by-law Number 6-74, whereby the Corporation was authorized to enter into an Agreement with the Ministry of the Environment for the provision of water service to the Corporation of The Town of Deseronto. Under the terms of this Agreement, the Ministry of the Environment will take over the existing system and will upgrade and improve the system and will supply water service to the municipality. The municipality will pay the Ministry of the Environment for this service which will amount to approximately \$35,000 in 1978.

The Ontario Municipal Board has given approval for this project under date of December 18, 1974, and upgrading and improvement of the system commenced in 1976 and it is expected to be completed in April 1978.

10. COUNTY LEVY

An Ontario Municipal Board decision handed down under date of January 20, 1976, occasioned by an appeal by The Village of Deloro against the apportionment for county rates made in 1974 for the year 1975 has resulted in a decrease in the 1975 county rates charged to this municipality in an amount of \$14,696. This decrease has not been reflected in the attached statements, but will be used to decrease the county rate for the years 1976-1978 inclusive. In 1976 \$6,586 and in 1977 \$4,055 was applied to the county requisition leaving \$4,055 to be applied in 1978.

11. THE ANTI-INFLATION ACT

The municipality, its local boards and commissions are by agreement between the Government of Canada and the Government of the Province of Ontario dated January 13, 1976, subject to The Anti-Inflation Act (Canada) and The National Guidelines. This legislation limits increases in compensation payments effective October 14, 1975.

'I can't see how we're interfering with the birds,' Bill Aman, commercial fisherman at Long Point, told the Scanner last week. Those are his buildings you can see across the water in the above picture. They are on leased land which now belongs to the Federal Government for a Wildlife Sanctuary. Leases can be broken with 30 days notice for obnoxious conduct, and the landlord is the sole judge of what that means.

HAPPENINGS

Mr. & Mrs. Ken McDonald of Oshawa, were Sunday guests of his mother, Mrs. Blake Moore and Mr. Moore.

Following the 9:30 service at the Church of the Redeemer, several members drove to the Quillet Park for an outdoor service with St. Andrew's, Picton, and a pot-luck lunch.

Rev. Robert Jones announced that Mr. Gordon Fresque has been accepted as a candidate for the ministry, with a 3-year program at Knox College. The Church of the Redeemer congregation is very happy to have one of their members and an elder, proceeding towards the ministry. Congratulations, Gordon.

Mrs. Violet Barbier, Mrs. Kim Caggashe and baby Trevor of Kingston, have returned home after visiting her sister Mrs. Kay Hood.

Mr. & Mrs. Frank Whiteman of Midland spent a weekend with his sister Mrs. Lottie Anderson. They joined family and friends at the home of Mr. & Mrs. Claude McRae of Lonsdale, to celebrate Mrs. Anderson's 80th birthday. Over 80 people signed the guestbook. Mrs. Earl Whiteman of Hastings Manor, Belleville, also joined the party, she celebrated her 80th

birthday the same day. Many gifts and well wishes were received.

Winner of June 50-50 Draw of Quinte

Link Rebekah Lodge No. 390 was Noreen Nieman of Deseronto. Seller: Shirley Layfield.

Deseronto Library Notes

For students doing area history projects and adults doing genealogical work, the library has microfilms of the old Deseronto newspapers (pre-1900) and of the Picton Gazette from 1901 to the present day. It's a laugh to see what prices are fifty years ago and a thrill to find your grandparents' wedding announcement as if it happened yesterday!

Timothy Findley's excellent novel concerning World War I, 'The Wars' is available at the library as is 'Ash' by David Walker and 'Bloodline' by Sydney Sheldon. For those who still wish to comprehend the Quebec situation, there is Butler's 'Quebec: the People Speak.'

Junior readers will enjoy the full-colour 'Wonderous World of Horses' and A.A. Milne's 'Once Upon a Time'.

The library will soon be going on summer hours. Watch for the new time in the paper.

Senior citizens please note that your film show is at 1:30 p.m. on Friday, June

16. It is a mixed show which will interest everyone.

Cree Indian Students From the North Visit Toronto, Niagara Falls And Deseronto

On Wednesday, June 7th, Peter Barbier, teacher and principal of Sachigo Lake school, in Northern Ontario and fifteen Cree Indian students ranging in age from 8 to 15, grades 3 to 8, and 4 adults, had lunch at the home of Peter's aunt, Mrs. Kay Hood.

They started out from Sachigo Lake, around 250 air miles from Red Lake, June 1st. The chartered plane broke down so a smaller one was sent which only held nine people.

They went ahead to Sioux Look-out, then by train to Toronto. A blizzard came up unexpectedly, so the rest of the group had to leave a day later. Finally, all were together in Toronto. While they were out enjoying the sights, Mr. Barbier's slide projector and all his northern slides and some money were stolen from their hotel room. Previous to this, his camera was taken. Total value around \$600.

classified ads get the job done

Most of the children have never seen tall buildings, cars, etc, things we take for granted.

They visited the Zoo, and had rides at the C.N.E. for the first time, also had Chinese food, another first.

They came by chartered bus from Toronto and stopped off at the Mohawk School on the Tyendinaga Reserve, where the principal gave them a tour of the school. Mr. Barbier had planned on showing the Northern slides to the children there.

After lunch they headed on the 401 to Kingston. The bus driver was a 'good Samaritan' and picked up an elderly couple who had car trouble. The man was on his way to a Kingston hospital for heart surgery, and had to be there by 3:30 p.m. The driver took them to the hospital, then headed for Old Fort Henry where they had a conducted tour. They stopped for 'Big Macs' on the way back to Deseronto, after seeing the University, Penitentiaries, and other points of interest around Kingston. They were too late getting back and the weather too wet to visit Mr. Clifford

Maracle's farm. Peter appreciated Mr. Melville Hill arranging for them to visit the school and farm.

Mrs. Gordon Fresque made a lovely big cake decorated with the words 'Welcome to Deseronto' and she and her husband joined them for tea and cake at Mrs. Hood's.

Peter and his group left for Toronto around 8:30 p.m. They visited Niagara Falls and Rockdon Safari before returning home on June 10th.

Peter and his wife Ursula planned the trip and the little village of around 100 to 150 people, raised some of the money. The group also received a Wintario grant. Ursula was very disappointed as she had to fill in as acting principal at the two room school, in her husband's absence and couldn't come on the trip. Mrs. Annie Taite, from the village, came along and assisted.

Although misfortune seemed to be following them, both children and adults had a wonderful time and will have lots to tell their friends when they arrive home.

Deseronto Legion News

by Art Hill

On Sunday, June 11, Branch 280 Colour Party and about 25 members with Ladies Auxiliary went by bus to Tamworth and took part in their 'D' Parade. The Branch 560 Junior's Fife and Drum Band and also the Napanee Pipe Band was on Parade. A very enjoyable time was had by all, with Tamworth being the perfect hosts.

On Monday June 12th the first meeting of the new Executive for 78-79 was held. Roy Sweet presided in absence of the President, Comrade Al Fraser who was in Edmonton at the Legion Dominion Convention. The new

officers and their committees which they are chairmen of, are as follows:

Ray Sweet, 1st Vice-President, Bingo & Finance; Al Puchard, 2nd Vice-President, Sports; Charlie Hearn, Executive, 50's; Rene Lavigne, Executive, Poppy; John Puchard, Executive, Property; Vic Brant, Executive, Legion & Community Programme; Ross Carron, Post President, Bar; Edna Hearn, Executive, Membership; Rev. J. Fletcher, Executive, Service, Sick & Welfare; Art Hill, Executive, Public Relations & Sgt.-at-Arms.

1 Associate Member approved.

The new officers trust that they will get the full cooperation of the members of Branch 280, in attendance at meetings, parades, etc.

The tickets for 'Legion Week' Banquet & Dance are on sale at the Bar to Legion members.

We hope that all members will do their utmost to make 'Legion Week' a success. Let's have 'Participation'.

The General Meeting is 8:00 o'clock on Friday June 16th. The General Meetings will be cancelled for July and August.

Dr. David Grier, of the Picton Animal Hospital, gets ready to give this cocker spaniel her shot against rabies, while Jean McCornock, technician, looks on

No rabies clinics planned this summer for Prince Edward or Hastings Counties

Neither Prince Edward nor Hastings County are planning any free rabies clinics this year.

The Belleville Health office reported that they don't usually have one unless the incidence of rabies is high and the county requests it. Prince Edward County has not had a free rabies clinic for the past several years.

Rabies is one of the most feared diseases of household pets and their owners.

The 'mad dog' disease, as it once was called, can strike almost without warning. Symptoms of rabies can change a usually docile pet into a vicious animal almost overnight. And the symptoms can occur long after an encounter with a rabid animal.

In countries like Canada and the United States, the plentiful wildlife population maintains a reservoir of infection. Skunks and foxes are the main wildlife carriers of rabies, and frequently spread it to domestic animals. Rabies in rodents, including squirrels and chipmunks, is extremely rare.

What exactly is the disease?

Rabies is officially described by Agriculture Canada - the federal department responsible for identifying the disease when it occurs - as a contagious disease of the nervous system of all mammals, including man. The disease is caused by a virus and the most common way in which it is spread is by the saliva of an infected animal entering a bite wound or cut.

Rabies also is a reportable disease under federal law, meaning that any suspected case must be reported without delay to a local district veterinarian of Agriculture Canada's Health of Animals Branch.

Rabies is nothing new. Even the writings of the ancient Greeks and Romans had mention of the disease. But in some areas, it is still misunderstood.

In Canada, where rural residents could well encounter a rabid animal, a

sound knowledge of the disease, its symptoms and precautions makes good sense.

BASIC FACTS

There is no means of treatment for rabies in animals. Once the disease is contracted, nothing can be done to prevent death. The only means of protection for most pets is vaccination and in areas with a high incidence of rabies it is important to keep pets under control. Even then, a small percentage of pets will not receive full protection.

Any mammal, including farm livestock, such as cattle, horses and sheep, can get rabies as quickly as the family dog, cat or man.

The disease can spread quickly by one animal biting another, or by an animal biting a man. Extreme caution is

Hoping to teach mathematics to Nigerian children for CUSO

Have you ever heard of CUSO (Canadian University Services Overseas)?

CUSO recruits volunteers to serve for two years in underdeveloped countries, supplying these countries with Canadian middle-level manpower in virtually all the professional areas. Placements are made at the request of the developing country, as CUSO can find volunteers to fill that country's needs.

Ron Cunningham of RR 8, Picton, had heard of CUSO but hadn't really thought about it until he was nearing the end of a four-year honour Arts course at Queen's University. He graduated this spring with a lot of mathematical education in his head.

Ron wasn't quite sure what he wanted to do with his life after he graduated. But a CUSO advertisement in one of the university papers, pointing out the need for mathematics teachers in Nigeria, caught his attention and he decided to look into it.

Although there is a pressing need for mathematics and English teachers in developing countries, it isn't easy to become a CUSO volunteer. Applicants go through rigorous interviewing and pre-screening before being accepted as 'Canadian ambassadors' to developing nations.

'Ron is just the kind of young person we are looking for,' said Jan Nicol of Northport who handles the CUSO operation at Queen's University.

Ron was an honour student at the Prince Edward Collegiate Institute, chalking up an average of 95% in grade 13. And, although he has no formal

RON CUNNINGHAM

teaching experience, he spent his last four summers at Prince Edward Heights, two of them working with retarded children. He also did some tutoring while he was at university.

He thought that teaching in Nigeria would be interesting and 'If I liked teaching, I would go into it here'.

Ron has qualified for a job with CUSO and is now awaiting confirmation that he is acceptable to the Nigerian Government. If he is, he will be off to Nigeria to start teaching in the fall.

Before he goes, he will be given an orientation course to prepare him for the conditions he will work under. CUSO volunteers are paid by the host country at the same scale as native people doing similar jobs.

Lions Club handling ambitious program in bringing boat races to Deseronto area.

The Deseronto Lions Club has taken on a very ambitious program, sponsoring the annual North American Championship outboard races and setting up their own Quinte Classic Boat Races, which they intend to make an annual event.

On July 2, outboards from the Maritimes to Ontario, from the eastern

seaboard states and as far away as Texas, and, possibly, even from Japan will be racing in the reach in front of Deseronto at speeds as high as 100 miles an hour.

There are only 29 members in the Lions Club, and only four of these are actively involved in the working committee for the races. The club has other projects underway as well...the

EDITORIAL

Within the next few weeks, Keith Norton, Ontario's Minister of Community and Social Services (COMSOC), will be making a decision on locations for pilot projects aimed at co-ordinating services for children.

It is expected that four locations will be chosen. Prince Edward-Hastings has submitted a proposal to have a pilot project set up here, and is being seriously considered as one of the four locations.

Some people in the two counties are not in favour of the pilot project and they have not been shy in voicing their opinions.

We feel they are making a mistake in buying the project, and that they might be in favour of it if they really understood what the project is all about.

In previous years, children's services were split up like a jig-saw puzzle at the Provincial level. The Ministry of Health handled children's mental health, the Ministry of Community and Social Services looked after child welfare and day nurseries, the Attorney General had detention centres and the Ministry of Correction had the juvenile delinquents.

But a child is not split up like a jig-saw. A child is a whole being and has to be considered as a whole...is his juvenile delinquent problem caused by a mental health problem?

As a starting point in looking after the whole child, all the provincial children's services were put under one ministry...COMSOC...pooling the funding under one roof.

At the moment, municipal services to children are funded on a variety of percentages but, overall, about 92% of the cost is borne by the Province and about 8% by the municipality.

Gerry Dooda, Comsoc district director, Belleville, said that financial relationship is basic and the new concept of children's services is not expected to burden local taxpayers.

If Prince Edward-Hastings gets approved as a location for one of the four pilot projects, there won't be any sudden changes. Funding will remain the same for some time.

A Children's Service Committee would be set up, made up of representatives from the municipal governments, service providers and agencies, and members of groups which use the services, such as parents of handicapped children, or mental retardation associations.

The committee would 'test the water' and, over a three-year period would organize and develop the

capacity and credibility to make allocation of funds, themselves.

The Provincial Government would put up \$100,000 a year to test out its theories in the pilot project for Prince Edward - Hastings. The money would provide salaries for a co-ordinator, researcher, secretary and a case work co-ordinator during the three-year development phase.

It is difficult to understand why anyone who is really interested in children and who knows what the program is all about, would object.

With children's services all under one roof at the provincial level, it seems pretty certain that the same concept will some day be in effect at the municipal level. Prince Edward - Hastings would be in on the ground floor and in a position to make considerable input of recommendations into the final provincial program set up, if a pilot project is launched here.

'It's a very exciting concept, trying to get rid of bureaucracy and leaving the individual decisions for the local children up to the local committees,' Mr. Dooda said. 'Local committees can do a more productive, sensible and sensitive job for the children in their community.'

We agree.

'How to save a life

Quick action can save a life in an emergency, St. John Ambulance points out.

If someone is bleeding severely, get pressure directly on the wound, with a clean dressing preferably, but with your hand if that's fastest.

Raise the wounded arm or leg or head above heart level and get the victim to medical help as fast as you can.

Letters to the Editor

UNICEF NEEDS HELP

Dear Editor:

As you are most probably aware, 1979 has been designated the International Year of the Child. It will be a year when worldwide attention will be focussed on the needs of children everywhere. The main objective is to raise the level of services which benefit all children on a permanent basis.

For the United Nations Children's Fund (UNICEF), every year is the 'year of the child' because an estimated 315 million children are still living beyond the reach of even the most basic necessities: maternal and child health, clean water supplies, nutrition, education and social services.

One of the most practical ways in which Canadians can show their support for the International Year of the Child and UNICEF, is to buy and use UNICEF greeting cards and year-round gift items, because UNICEF is the only United Nations agency which relies on voluntary financial support from both governments and individuals.

Unfortunately, we do not have an outlet for UNICEF cards in our area and we are writing to ask you if you could bring this to your readers' attention. Naturally, we would be pleased to assist any individual, group or business who would be interested in selling cards as a community project. All they have to do to obtain further information is to write to: Greeting Card Department, UNICEF Canada, 443 Mount Pleasant Road, Toronto, Ontario, M4S 2L8.

Thank you for your anticipated help.

Yours sincerely,
Colin J. Rainsbury, Director, Greeting Card Program.

VIEW POLITICIANS WITH SUSPICION

Would you buy a used car from your friendly, neighbourhood politician?

No way, at least if you are like the more than 650 people surveyed in Kitchener Waterloo by Dr. Steven Brown, an assistant professor of political science at Wilfrid Laurier University.

The survey indicates that people rank politicians 12th on a list of 13 occupations in terms of their likelihood of selecting principles over career expediency when the two conflict. In this respect, politicians as an occupation group rank just ahead of used car salesmen.

Clergymen, physicians and policemen in that order are seen as most likely to follow their principles when forced to choose between the two courses of action.

Among those further down the list are dentists, professors, auto repairmen and retail merchants.

In a second question, Dr. Brown asked people whether the motives for the actions of a typical member of each occupation could be taken at face value, or whether his motives must be viewed with some suspicion.

Once again, only the actions of used car salesmen were viewed with greater suspicion than those of politicians.

STRAWBERRY TIME AGAIN

The strawberry is a member of the rose family. Since it began to be cultivated in the 13th century, many varieties have been developed. We are lucky that in Prince Edward County are found some of Ontario's best strawberry patches where you can pick your own.

This fruit lends itself to a very large number of scrumptious dishes and everyone has a favourite recipe for strawberry jam or strawberry cheesecake. Once you have eaten your fill of berries with sugar and thick Devon cream, try the next-easiest way of serving strawberries, the dip.

These two dips are very different and very tasty. The last recipe is for a dish served in strawberry season at the French Chateau built by Mr. Coty, the perfume man, since the Chateau has been made into a hotel.

QUICK STRAWBERRY DIP

Fresh strawberries, 2 cups
Commercial sour cream, 1 cup
Lemon juice, 1 tsp.

Freshly grated lemon peel 1 tsp
Icing sugar, half cup

Place a round bowl in the middle of a shallow glass dish. Surround bowl with strawberries, washed but not hulled, the stems to be used as handles.

Beat remaining ingredients together, pour into bowl and refrigerate all, until ready to serve. Serves 4.

STRAWBERRIES ROQUEFORT

Fresh strawberries, 1 quart
Quark or creamed cottage cheese, 2 cups, (one pound)
Roquefort cheese, crumbled, half cup (2 ounces)
Orange rind, grated, 2 tsp.

Wash strawberries, but do not hull. Sweeten if desired.

Combine remaining ingredients and beat until well blended. Chill the berries and the Roquefort mixture until ready to serve.

Spoon Roquefort mixture into small individual serving dishes and serve surrounded with strawberries for dipping. Serves 8.

FRAISES BENEDICTINE

Strawberries, one quart
Milk, 2 cups
Salt, dash
Sugar, quarter cup
Benedictine, quarter cup
Egg yolks, 6

Whipping cream, quarter cup
Wash and hull strawberries. Place the berries in a 2-quart dish and chill.

In the top of a double boiler combine milk, salt, sugar. Heat until the milk is too hot to put your finger into, then add the benedictine.

Beat together the egg yolks and whipping cream. Add this mixture to the hot milk very gradually, stirring briskly until thickened.

Remove from the hot water and continue, stirring briskly until the mixture begins to cool.

Pour over the strawberries and chill again. Serves 8 - 10.

Local people voice opinions on need for Government action on CORTS ideas

A large number of people interested in the Rideau, Trent-Severn tomorrow attended the Trenton public meeting of the CORTS Advisory Committee last week. They voiced their opinions on the need for universal boater education, removal of aquatic weeds to open up channels in the Bay of Quinte and a lack of current long-range government policies regarding tourism development.

'How the devil are you going to have universal boater education and licensing for all the visitors who use our waterways every year?' asked Picton area resident Donald Misener.

He was responding to the CORTS greennapper proposition that 'universal boater education, with a test or certificate of competence be required for all persons operating boats in the CORTS corridor'.

Another member of the audience called boater education as a way of promoting water safety 'a step in the right direction' and added, 'if Canadians are the ones to start it, perhaps it will rub off on our neighbours to the south'.

Several members of the audience questioned the financial feasibility of municipalities or conservation authorities funding weed harvesting programs in the Rideau, Trent-Severn system, as proposed in the greennapper. 'We haven't found a municipality that is receptive to the suggestion, although the conservation authorities feel confident to get involved,' said Jim O'Brien, CORTS Advisory Committee member.

A Frankfort resident asked if research has been done on the cost to municipalities for weed removal. He was told that harvesting costs about \$150 an acre.

The spread of aquatic plants has become a major problem in the Rideau and Trent-Severn waterways and participants at the meeting stressed the problem is particularly serious in Presquille Bay.

A Brighton resident noted his township has begun weed control in their portion of Presquille Bay but Brighton is a very small municipality covering a large area of water.

'We need a plan of action that is hard-hitting, right now', a Brighton marina operator said. 'The Brighton area has already suffered a loss of tourism from south of the border due to weed problems and investors cannot plan ahead because of a lack of concrete government commitment'.

This comment was in response to the proposal that governments clarify by 1981 their long-range plans, policies and programs concerning development of tourism and recreation facilities so that investors can plan future developments. He stated he was in favour of this idea, but felt a delay of three years would seriously hamper investors.

Other recommendations made in the CORTS greennapper and the Interim Land Use Guidelines which were discussed at the Trenton meeting included: listing all environmentally sensitive areas in the corridor; publicizing the location of Crown lands; prohibiting development along narrow channels and review of all subdivision plans, to avoid problems caused by conversion from seasonal to year-round use.

A LICENSED INSPECTION STATION

Quinte News

Round Up

WANT TO SAVE MONEY?

Next time you see someone getting into a car and not doing up the seat belt, tell him, or her, to do it up. And, if you're told to mind your own business, say it is your business, they could be putting everybody's OHIP premiums up.

During the first year that seat belts were mandatory in this Province, the number of hospitalized accident victims dropped 16 per cent and the cost for treating those patients decreased by almost \$2 million.

OILED EGGS

Some Canadian egg producers are oiling their eggs in order to give consumers a fresher product.

Recent tests at Agriculture Canada's Research Station in British Columbia have confirmed that the practice of covering eggs with a light coating of mineral oil prolongs their shelf life.

No thanks, I'll take my eggs unoiled and from the hen, the way I'm lucky enough to be able to get them right from a Prince Edward County farm.

PLANNING GRANTS

Community planning study grants are available to assist in the development of a community plan. The grants are available to municipalities, counties, and regional municipalities.

For more information, contact the Community Planning Branch, Agriculture Canada, Ottawa, Ontario.

A LITTLE LATE

The Federal Government has announced that it will be late in releasing the results of the study on the impact of the new meat inspection system on the meat and poultry industry and their by-products and mixtures.

But, with the warning from the Retail Council of Canada that 'higher beef prices are anticipated to continue at least through the summer months as the barbecue season gets underway', it's not too likely many of us will be buying beef to barbecue.

And Heaven help the fellow who manages to burn the hamburgers to crisp this year...all that money going up in smoke.

INFORMATION PLEASE

Sandra Nelson of Demoreville and Barbara Fennell of Cherry Valley have been hired to handle a tourist information trailer-booth planned by the Prince Edward Chamber of Commerce.

The group hopes to place the booth near the Glenora Ferry on the Adolphustown side and is seeking government approval.

Edward is all ready to help out stranded motorists by relaying locations and needs of drivers through a CB network.

A fluorescent orange flag, with the word HELP printed across it, can be attached to the window of a disabled car to attract attention.

For more information, contact Ken Ostrander of the Prince Edward REACT team.

CAMPSITE INFORMATION

Privately-run camp grounds in the province will be introduced into the Ontario Ministry of Industry and Tourism campsite vacancy reporting program for the first time, starting tomorrow. In past years, the program has included only campsite vacancies in provincial parks.

Individual campers can dial direct for information at 416-965-4008, 416-364-4722, 705-726-0932, or 705-728-5851.

DRUG STORE OPENING SOON

Deseronto is another step closer to having its own IDA drug store now.

Stock went into the Main Street premises early this week and Keith Hager is hopeful the store will open next Monday.

Once the store is all set up, it will be inspected by the Ontario College of Pharmacists for approval, before opening for business.

CONSUMING INTEREST

One of the little facts we picked up this past week is that the Federal Department of Consumer and Commercial Affairs is keeping an eye on local stores to make sure customers are getting safe products and at correct prices.

Irene Szota of the Department's office in Kingston, was weighing up packages at Carload in Deseronto on Friday morning.

VENTURE OUTING

The annual Venture was held June 2, 3 and 4 at Vanderwater Park in Belleville. Approximately 100 Venturers took part in this year's Venture, coming from Deseronto, Minden, Bloomfield, Cobourg, Trenton, Belleville, Newcastle, Peterborough and Fairview.

Some of the events were canoeing, obstacle courses, raft races, fox hunt, archery and catapuls.

Accompanying Lou Hird and the Venturers were Derek Gordanier and four Scouts, Ron Tinney, Rick DeBoer, Philip Green and Charles Green. The Venturers who attended were Bob Gordanier, Terry Kimmett, Tom Tinney, Jack De Boer and Robert Birt.

BAHA'I FAITH

QUESTION:
Is there a Baha'i priesthood or clergy?

ANSWER:
There is no clergy or priesthood in the Baha'i Faith. Baha'u'llah has placed the responsibility on each individual for his own spiritual progress. In addition to declaring one's faith in Baha'u'llah, Baha'is are urged to deepen their knowledge of the Faith, to teach the Faith, and to live the Baha'i life.

Rabies

Continued from page one
required in handling an animal that has bitten a human. The owner should contact an Agriculture Canada district veterinarian, who will give instructions concerning precautions and confinement of the animal.

Heavy clothes and other protective clothing should always be worn in dealing with a suspect animal. All wounds should be washed to their full depth for a few minutes using soap and changing the water frequently. An antiseptic should then be applied and medical assistance sought immediately.

One way in which humans are frequently exposed to rabies is when they encounter a wild animal that is unusually tame or appears to be sick. People are bitten as they try to pick it up. It is advisable for parents to warn children not to approach any wild animal even though it appears unusually tame.

FAMILY PETS

It is of course possible that the family pet may be bitten by a rabid animal without its owner's knowledge. Symptoms of rabies in all household pets usually appear two to 12 weeks after the encounter. But this is by no means a solid rule of thumb. In the dog, symptoms may not develop for up to six months. The interval between infection and the onset of symptoms depends largely on the severity of the bite and its distance from the brain.

As far as identifying symptoms are concerned, there are two distinct forms of rabies - dumb and furious.

With the latter, better-known type, the typical symptoms are a radical change in disposition. The docile dog becomes a snarly, irritable animal, and there may be excitability, viciousness, drooling and biting. Paralysis follows and then death, usually four to seven days after the symptoms first appeared.

With dumb rabies, the vicious cycle is either absent or short-lived, but the end result is the same.

With control or eradication of rabies not yet within reach in Canada, the only defence is to guard against the disease, especially with annual vaccination and control of pets, and take swift action should it occur.

Skunks and foxes are the main wildlife carriers of rabies and frequently spread it to domestic animals.

Deseronto Legion News

The monthly general meeting of Br. 280 was held on Friday, June 16, with the 1st Vice Comrade Ray Sweet presiding. One associate member was initiated.

The chairman of the committees gave satisfactory reports, mostly dealing with the forthcoming 'Legion Week'. The Legion hopes that the townspeople will take part in the activities and make a success of the week.

All the Legion members are reminded that the Parade is on Sunday at 1:30 p.m. uniform and medals please.

All who attended had a great time and are waiting to go again in 1979.

The bingo on June 13 had a \$400 winner, Wanda Jackson, also Saturday 17 the Pot of Gold was won by Dorothy Walters, \$244.

The general meetings have been discontinued until September. The executive will meet and carry on Legion business during the summer.

The Ladies Auxiliary and Men's Branch paid tribute at a Legion Service in the White and Morris Chapel on Thursday for a Charter member who passed away, Comrade Edith Fraser. Rev. John Fletcher, Legion Padre, conducted the service. On Friday, the funeral was attended by Ladies Auxiliary and Men's Branch, with Oddfellows and four Legion members as pall bearers. The Legion sends its deepest sympathy to the family.

Boat Races

Continued from page one
completion of their new building on Main Street, and the Exposition held recently at the arena.

'It's been a scramble doing all the organizational work involved in a project such as the races. We should have started six months before we did,' Mac Maclean, race committee chairman said.

But they seem to have everything pretty well under control now.

The North American Championship races rotate their locations. Last year, they were in Mexico. When the Lions first got the idea of holding them here, they asked the Prince Edward Boating Association for advice about organization, pitfalls they might encounter and procedures to follow. Then they went to the Canadian Boating Federation, to which they now belong, and laid out a budget.

The next step was to try and find sponsors for the races. There are five big races with prizes of \$500 each for three races and a split of another \$500 for the other two races. They are also giving out two Quinte trophies, in the 500 cc and a combination class.

'Town Council has given us full support,' Maclean said, 'and local groups are pitching in.'

Parking at the woodlot across from Canada Optical, at Canada Optical and Metcalfe's, and in the arena area will be manned by the minor hockey groups, the Sea Cadets and the Scouts.

'The kids have promised to help us clean up the area the next day too,' Maclean said.

Blakeney welding shop has donated facilities for a pit stop and the Napanee Lions Club will be serving breakfast and lunch for the competitors. Deseronto United Church and the Sophiasburgh Fire Department are setting up refreshment booths in Centennial Park.

Chairman of the Canadian Boating Federation, Dick Warring, is going to referee the races and John Sidthorp, race chairman for Prince Edward Boating Association, will be co-chairman for the events.

The three members of the working committee, in addition to Chairman Maclean, are Ernie Luck, Don Lindsay and Harv Taras.

Government comes up with a scheme to alleviate skilled worker shortage

Last week, at Loyalist Convocation, Dennis Timbrell Ontario Minister of Health, was quoted as blaming today's crisis of youth unemployment partly on government short-sightedness because of encouragement to thousands of students to take a liberal arts education while, at the same time, Canada was importing labour to work in high-paying skilled trades.

Now the Ontario Government is finally coming up with a scheme to alleviate the critical shortage of skilled workers in Ontario's manufacturing industries.

During 1978-79, the Ministry of Colleges and Universities will initiate training schemes worth up to \$8 million, with funds provided by the Canada Employment and Immigration Commission. The funds will subsidize employers who participate in a new employer-sponsored training program.

Under the new program, local training needs will be determined by community industrial training committees representing employers, labour, local government, local offices of the Canada Employment and Immigration Commission, local educators and others.

Employers will receive subsidies to help meet their training costs. This plan will allow employers to help develop a pool of skilled workers without running the risk of losing their training investment if a trainee leaves to work elsewhere, Dr. Parrott said.

Discussions are now underway with several communities to establish employer-sponsored training. Announcement of project details will begin in the fall. Dr. Parrott said that several thousand people will begin training within the next year.

He also said that he hopes for a three-fold increase in the number of apprentice tool-and-die makers, mould makers, and general machinists. Some result of an agreement by management and labour regarding training standards apprentices in these three trades may now earn a Certificate of Qualification under the Apprenticeship and Tradesmen's Qualification Act.

He told the Legislature that his Ministry has agreed with the Ministry of Education to reduce the amount of time that some apprentices spend in the classroom. In the trades of baker, cook, hairdresser, and motor vehicle mechanic, credit will be given for technical training in high school, thus reducing in-school training time during apprenticeship.

He also informed the Legislature of co-operative arrangements between the Windsor School Board and St. Clair College of Applied Arts and Technology which will allow some students direct entry to the second year of the College's toolmaking technician and plastic mould making technician programs. 'This scheme should become a model for other locations and trades,' he said. 'It will enable apprentices to become qualified journeymen at a younger age and will reduce employers' training costs.'

WATCH OUT FOR

BLACK WIDOW SPIDERS

For most Canadians the black widow spider exists only in books and movies.

However, if you live in the Bruce Peninsula, the extreme southwest portion of Ontario, the interior of British Columbia or Southern Alberta, you run a small risk of encountering this venomous spider.

Although the spider is not dangerous to humans, it is a pest to many farmers and gardeners. It is also a pest to many homeowners who find it in their basements or attics.

The black widow spider is a small, black spider with a red, hourglass-shaped mark on its back. It is a very fast and aggressive spider.

Children especially should be warned to stay away from its usual habitats.

Mrs. Jim Horwood (nee Paula Akey) of 44 Winchester Drive, Napanee, graduated from the Diploma Nursing Course at Loyalist College, Belleville, on June 10, and was named to the Dean's List. She is the daughter of Mrs. I. Sherman of Deseronto and the late Ross Akey.

Deseronto Library Notes

The library offers a number of new books this week for your enjoyment.

In the area of mystery and adventure there is Ludlum's 'The Chancellor Manuscript', Macdonald's 'The Drowning Pool', and Bagley's 'The Enemy'. There is also Sheldon's 'The Other Side of Midnight' and Thompson's 'Blood and Money', plus Catherine Gaskin's 'The Lynmara Legacy'.

For those interested in developments in China over the past century, the biography 'McClure' and Han Suyin's 'Wind in the Tower' are available.

The little ones are not left out either. The library has the story books 'Surprise, Surprise' and 'Three Friends Find Spring' for them, plus 'The Little Duck' which has beautiful photographs. For the older children, there is 'Charlie and the Glass Elevator'.

NEW CANADIAN BOOKS

McClure: The China Years, by Munroe Scott, Christopher Isherwood, the English writer, said of Robert McClure, "he has the energy of a whirlwind and the high spirits of a sixteen-year-old boy." This and his strong religious faith led him to an extraordinary life.

This book deals with the first forty-eight years of McClure's life, of his enthusiastic pursuit of excitement through encounters with danger. He was one of the first to make use of the Burma Road; he went on cycling trips through bandit country. But there was always a purpose; bandits had to be persuaded to allow Dr. McClure to visit the sick and as to make use of his hospital themselves.

Truly one of Canada's great men, McClure has ministered to the poor all of his life, before coming home to become moderator of the United Church of Canada.

Are you Paying Too Much Income Tax?, by Wayne Beach. A little late for the tax season but this is the best book on income tax and financial planning that I have seen.

It is revised each year to incorporate changes in such things as RRSP's and dividend tax credits.

The Delaney Report on RRSP's, by Tom Delaney. Provides an explanation of the Registered Retirement Saving Plans, the ground rules, the different kinds, a buyer of annuities and advice on investing in RRSP's. Also contains a buyer's guide with up-to-date statistics on the performance and ranking of most available plans.

Recreational Farming, by Eric Winter. In this book, enhanced by maps, tables, drawings and photos, an experienced and articulate part-time farmer shares the knowledge that enables him to lead a pleasantly dual life; city professional and productive farmer.

The Life and Death of Anna Mae Aquash, by Johanna Brand. The starting story of a Canadian victim in the secret war between the FBI, the RCMP and the American Indian Movement.

Johanna Brand investigates the murder of Anna Mae Aquash, a Canadian Indian, in South Dakota and the cover-up that followed.

The Pioneer Years, by Barry Broadfoot. A superb oral history, with photographs, of memories of settlers who opened the west.

Voice of The Pioneer, by Bill McNeill. Selections from one of Canada's best-loved radio programmes.

True Lies, by Alice Munro. One of the finest writers in Canada today has written this series of interconnected stories that brilliantly explore the lives of women.

Help for food storage

Regulations which will permit Eastern Canadians to apply for assistance to build feed storage facilities in grain-deficient areas, like Hastings County, are expected to be announced soon.

Jack Ellis, MP Hastings, told the House that the \$15 million grain elevator program had been announced nine months ago and the Treasury Board gave its approval, but noted that no announcements had been made as yet concerning individual grants.

Eligible elevator operators will be entitled to 50 per cent of the capital costs to a maximum of \$500,000 on the construction of new facilities.

OBITUARIES

MRS. EDITH FRASER

Mrs. Edith Fraser, of Brant Street, Deseronto, passed away at Hillcrest Nursing Home, Napanee, on Wednesday, June 14, 1978, in her 78th year.

She was the daughter of the late Harry Purser and the late Eliza Jane Blackman, and the beloved wife of the late Harry Fraser. Dear mother of Albert, Deseronto; Lillian (Mrs. Donald Pringle, Deseronto); Mrs. Jean Langton, Toronto, and Mrs. Margaret Fraser, Toronto. She is survived by a brother, Harry Purser, of England.

Rested at the White and Morris Funeral Home, Deseronto. Funeral services were held in the Chapel, Friday, June 16 at 2 p.m., Rev. Jack Fletcher officiating. Interment was in the Deseronto Cemetery.

FINLEY ROBINSON ELMY

Finley Robinson Elmy of Marysville, passed away in the Belleville General Hospital on Sunday, June 18, 1978, in his 63rd year.

He was the beloved husband of Lorraine Arnold, dear son of Mrs. Margaret Robinson Elmy and the late Robert Elmy; dear father of William, Mississauga, and Philip at home. Dear grandfather of Brad. Three sisters survive: Mrs. A. Alford (Ira), Corbeville; Mrs. Atherton (Helen), Picton, and Mrs. Ada Wood, Kingston.

Rested at White and Morris Funeral Home, Deseronto. Service was held at St. Marks Anglican Church, Tuesday, June 20, at 2 p.m., Rev. Jack Fletcher officiating. Interment was in the Deseronto Cemetery.

LCBO vote required by December 31st if Adolphustown wants special permits

A vote of residents in Adolphustown Township will be required before December 31 of this year if 'special occasion permits' are desired after that date, the Liquor Control Board has informed Adolphustown Township Council.

Council also received a request from the Township of South Fredericksburg that a joint meeting concerning improved fire protection for the two municipalities be delayed.

The additional planning grant funds, amounting to \$904.07 have been received from the Ministry of Housing.

Up to the beginning of June, \$440 had been collected by the treasurer for dog tags and deposited to the township. An additional \$221 collected by B. Weese and \$318 by R. Whitmore has not yet been deposited. Building permits to date, not deposited or reconciled, amounted to \$266.

Building permits were approved for R. Sherman, D. Ukrainetz, R. Saunders and H. Toomsalu.

Council moved that the questionnaire from the Ministry of Housing re the application of Charles Bonds for a subdivision Lots 25 and 26, Con. 4, be considered as follows: a rezoning to R5 would be required; proper agreement with the subdivider regarding roads, park facilities etc. is to be completed; the question as to whether the subdivision is in the public interest; and that the subdivision be done in three phases, because another subdivision in the area is not yet developed and the lots are now weed problems and administrative burdens.

Paul Littlefield has been hired to take over the duties of Peter Littlefield for general cleanup and sanitation at the garbage bins and for cutting lawns at the hall.

CUSO TEACHERS

Continued from page one

Ron is pretty excited about it. He has only been out of Canada several times...on trips to the United States...and has never been on an aeroplane.

He doesn't know much about Nigeria yet, although his father, A. Cunningham who was posted in northern Africa during the war, with the RCAF has told him a few things...Usually encouraging things like the dysentery problem', Ron said.

'I asked for a rural posting,' he said. And he understands that most postings are not in big cities but not in remote areas either.

He expects the pupils will be at the secondary school level and, that they will speak English. English is the official language but it is not the first language of most of the students. There are dozens of different tribal languages.

CUSO is a non-government organization which gets financial assistance from the Canadian International Development Agency. It began its work in the early 1960's and was set up, primarily, to help developing countries by providing them with western technology, capital and professional skills.

The CUSO recruitment office at Queen's was only opened about three years ago. Previous to that, recruits from this area were handled from the office in Ottawa.

'During the past three years, we have handled a great many applications and placed about 20 applicants, Jan Nicol said. 'One of the volunteers we placed two years ago has decided to stay on for another term, she likes it so much.'

'In addition to university graduates, CUSO badly needs skilled tradespeople and medical personnel with experience,' she said. 'Anyone interested can get in touch with me by

JAN NICOL, CUSO OFFICER

calling the office in Kingston...1-547-2807.'

What is Kon doing while he waits for confirmation from the Nigerian government?

'I'm helping my father with the haying,' he said. 'We have to get the hay before the boll weevils get it.'

HAPPENINGS

Freda and Fletcher Vick celebrated their 40th wedding anniversary on June 4, quietly with friends.

On Sunday, June 18, Mr. and Mrs. Samuel J. Kelly, Sr., celebrated their 58th wedding anniversary. Sam and Sadie have six children, 11 grandchildren, and eight great grandchildren, and they now reside at Dundas Street Heights, Napanee.

Best wishes were received by family and friends and they enjoyed a visit from their son, Jim and family from Fort Erie.

The day ended with a dinner out with their daughter Joan and her family and a drive around some familiar homesteads from the past.

Mr. and Mrs. Murray Dainard of Napanee, Mr. and Mrs. Brian Sikora of Teeswater, Mrs. Kay Watson and Tammie of Downsview, Mr. L. Foster and daughter Reta Lynne, Deseronto, and Mr. and Mrs. Russell Brant and son Russell of Toronto, were Sunday dinner guests of Mrs. Beryl Herman. They all attended the Church of the Redeemer service where Russell John Brant, son of Russell and Wendy Brant, was baptized.

Glad to hear that Mrs. Shirley Foster returned home from the Napanee hospital on Monday.

SERENITY HOUSE GETS GRANT

A grant of \$15,000 has been awarded to Serenity House of Quinte, Belleville, which operates a residential, rehabilitation program with accommodations for 18 alcohol dependent persons.

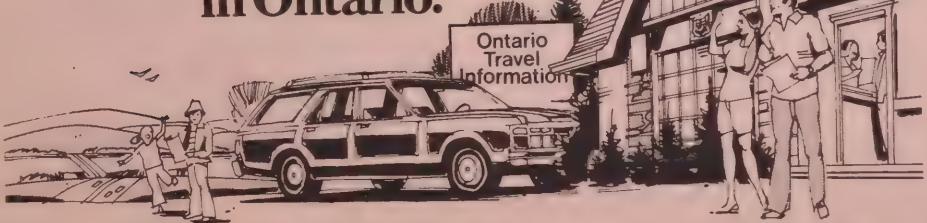

Grants-in-aid are awarded by the Ontario Ministry of Health to alcohol and drug community projects.

Millions of tourists spend billions of dollars a year in Ontario.

That means jobs!

Would you believe it? Tourism creates over 400,000 jobs in our province. It brings in more than 4 billion dollars a year. In the end it helps pay for government services that the people of Ontario need.

That's why Ontario is launching a special promotional program to tell people in other parts of Canada and in the U.S. that they are especially welcome as visitors to Ontario. We're saying "we treat you royally".

Last year, over 100 million visitors enjoyed Ontario's hospitality. This year

we're expecting even more. Here's where you come in. You can make every one of these visitors glad they're here, and give them a good impression to take home. That way, they'll want to come back, and will tell their friends to come here, too. That's good business.

Let's all treat visitors royally. We'll not only be helping to create jobs... we'll be making new friends.

Your Ontario Government actively helps develop tourist facilities, staffs travel information offices, and promotes Ontario as a most attractive vacationland and convention centre.

Travel Ontario yourself this summer.

For your free "Get to Know Ontario" kit, which includes our Traveller's Encyclopedia of Ontario and our "Summer Events" brochure, call collect or write to:

TIME CAPSULE BURIED AT OPENING OF DEMORESTVILLE DAM

Saturday was a big day for the folks in Sophiasburgh. Two special events were on the agenda...the official opening of the Prince Edward Region Conservation Authority's (PERCA) dam at Demorestville and the marathon race from Sophiasburgh School along a mile and a half of highway to the dam site.

Officials from many levels of government were on hand to take part in the dam opening ceremony, and congratulations were in order all around. The dam is the result of at least five years of combined effort on the part of the provincial, county and township governments. It was needed to ensure a constant supply of water for fire fighting and other purposes.

'The initiative for formation of a conservation authority must come from the municipalities,' R. Bugar, director, Conservation Authorities Branch with the Ministry of Natural Resources, told the crowd gathered for the ceremony. 'Conservation is based on watersheds, and Sophiasburgh needed water for its fire fighting.'

There used to be a dam in the area which supplied an old mill, now gone.

In introducing Mr. Bugar, James Taylor, MPP for Prince Edward/Lennox, quipped about his knowledge and experience by saying Mr. Bugar had more degrees than a thermometer.

Master of ceremonies was Donald Bond, chairman of PERCA, and greetings were brought by Jack Wells, Prince Edward County warden, and George Foster, Sophiasburgh reeve. Dedication was given by Rev. Robert Jones of St. Andrews Presbyterian Church and Gary Fox, PERCA advisory board chairman thanked those who took part.

Students from the Sophiasburgh school had prepared a time capsule to be buried at the dam site and not to be opened until the year 2,000. In it they had put school news bulletins, lists of staff, names of members of the school board and other interesting items.

Kathy Pearsall and Helena Bulpit presented the capsule to the Authority chairman.

Winners of the marathon race from the school were Brenda Davidson, senior girls; Scott Newcombe, senior boys; Linda Boomhower, junior girls, and Derrick Evans, junior boys.

Trophies were presented by Sophiasburgh Fire Chief Walter Pulver, and Glenn Tripp, of Sophiasburgh Township Council.

TOP LEFT: This smiling youngster was first over the bridge when the ribbon was cut for the official opening of the Demorestville Dam. TOP RIGHT: Donald Bond, PERCA Chairman, accepts the time capsule from Kathy Pearsall and Helen Bulpit. BOTTOM RIGHT: Sophiasburgh councillor, G. Tripp, presents one of the trophies.

THE LAST DAY OF SCHOOL......and these three little boys are excited about the holidays and about their move up to Grade One from Kindergarten next year. The boys are Chris Wood, Morley and Michael Brant. The little girl was unidentified.

Harnessing china horses provides former butcher with interesting hobby for his retirement years

Beautiful little hand-made models of horse-drawn carriages and wagons are attracting centennial visitors to two large store windows in Belleville.

The vehicles, drawn by china horses,

Ellis is Keeping A High Profile

Jack Ellis, MP, Hastings, and candidate for the Progressive Conservatives in the riding of Prince Edward-Hastings, if and when an election is called, is keeping a high profile with the voters in Prince Edward these days.

Last week, he met with the commercial fishermen from Long Point who operate from leased land. They are very upset about their position now that the land, and their leases, have been purchased by the Federal Government for a wildlife sanctuary.

At a meeting in Millford, Mr. Ellis told the fishermen that the government had agreed to renew their leases for a five-year period, with provisions for a further five-year renewal.

He also agreed to seek 20-year leases for the fishermen.

Some of the fishing families have been in the business for many years and have erected fairly permanent buildings on their leased properties, but there has not been much security because the landlord has the right to cancel the leases on 30 days' notice for 'obnoxious conduct'.

The fishing families have been concerned about new noise and lighting regulations which might seriously restrict their lives. Would infractions, such as having lights on when not allowed, be considered 'obnoxious conduct' and result in cancelling of leases.

They have also objected to what they termed 'high-handed' behaviour on the part of the Federal Government officials.

Mr. Ellis is taking an active part in trying to smooth the fishing waters.

mostly Royal Doulton, are the work of John L. Black who has found this labour of love makes an interesting hobby for his retirement years.

It's an expensive hobby. A large Royal Doulton horse can run as high as \$300 or \$400 and one set of four horses, cost him \$700.

All the wood used in the little carriages or wagons is either solid mahogany or mahogany ply wood. And he makes everything himself, including the 'metal' aluminum rims for the wheels.

He does get help from his wife when it comes to outfitting the doll riders.

He got interested in trying his hand at this work about four or five years ago when he attended an auction sale in Bath.

'I was late getting there,' he said, 'so I was away at the back and couldn't see very well. There was a buggy with wooden, carved horses and I went up to \$75 before I quit bidding.'

He didn't get it, but his interest was aroused and he got some books with pictures of horse-drawn carriages and carts used in past centuries, which he has used for models. One of the books he got at an auction sale for \$75 is a huge volume, 'Coaching Days of England'.

It is obvious that a great deal of painstaking effort goes into each of the models. Every detail is accurate... 'I like to see how good and true I can make them,' Mr. Black said.

'I had a butcher shop here in Belleville for 36 years,' he said, 'and I worked from seven in the morning until 6.30 at night. So I'm used to long hours.' He retired about seven years ago.

His equipment includes a table saw, band saw, lathe and sanders. For the harnesses he has special needles and uses a light leather that he can cut with scissors.

He works mainly in the winter. In summer, he likes to get out fishing in his boat and catches a lot of bass just off the Northport shore and at Telegraph Narrows.

The first model he made was a Smith's

coal cart. In addition to carriages, he has done some more modern models such as circus wagons and, recently, he completed a model of his own boat.

Getting horses hasn't been easy. There is not much market for Royal Doulton horses of the size he uses, so not all places stock them. He had had good luck getting them in Peterborough and sometimes gets them in Toronto.

This is the first time he has had them all on display although some were shown at a March meeting of the Prince Edward Historical Society this year.

FINALLY

A Decision on Policing

Finally, the Scanner has been able to get some news out of Deseronto's elected representatives about what will happen in the town when Police Chief Carl Beattie's resignation takes effect today is his last working day.

L. Thomson, chairman of the Police and Fire Committee of Deseronto Council said Monday night that Constable Norm Clark will be named not acting chief, but officer in charge.

In effect, that will make Deseronto's mayor, John Neal, the chief. When the position is vacant, the head of council or chairman of the police board, has the responsibility of chief of police.

The police force has already been running at reduced manpower, ever since Constable Brian Cowan left some months ago because of injuries suffered in the line of duty. When Chief Beattie is gone, the force will be down to two men, unless some replacements are made.

During the past few months, when three men have been manning the force, police overtime has been running high. In May, for example, the three piled up 165 hours of overtime, more than for 40-hour weeks, so it would appear there was plenty of work for a four-man force which would probably be cheaper than overtime for the town in the long run.

'We're very anxious to bring it up to a three-man force as soon as possible,' Mr. Thomson said.

But Council has not been acting very quickly on this matter.

Council received formal notification of Chief Beattie's resignation on April 10. It wasn't until May 31 that council advertised in the local paper for a new chief, and closing date for applications was June 9. No one has been named chief yet.

EDITORIAL

A DIFFICULT MAN TO REPLACE

Today is Carl Beattie's last working day on the job as chief of police for Deseronto.

We're going to be sorry to see him leave that position.

During his 10 years with the Deseronto Police Force, Carl has been a familiar, well known, well liked and respected figure in the town.

He has pulled his weight in many community efforts, as a member of the local Lions Club, the Masonic Lodge and the Board of the Anglican Church.

And his work with the young people of this town has been particularly noteworthy.

One example is the interest he took this year in helping to arrange Career Day at the Deseronto Public School. He chaired a panel and seemed to know every youngster in the assembly by first

name.

During question period, the children crowded around him asking informal questions and, obviously, very much at home with him.

Carl will be heading off for his cottage at Otter Lake within the next few days, to take it easy for a while.

We wish him the very best of everything in the years to come.

Letters to the Editor

EVERYONE AN AMBASSADOR

Dear Editor:

May I draw note to the Quinte Classic Boat Races being held in Deseronto on Sunday, July 2.

Even though the event is sponsored by the Lions Club, I feel that everyone in the area is a sponsor, or at least an ambassador.

During this weekend, when boats and crews from all over Canada and the United States will be coming into our community, we will be on display. If the event is successful, everyone can have a sense of achievement.

The race is only a vehicle for Deseronto to present its image. We live here, and we are proud of our community. Let us go out of our way to welcome visitors to our town and to see for themselves some of our reasons for living here.

We live on the Heritage highway, and I believe our heritage as Canadians, during Canada Week, is drawing on the past to remember things done in co-operation to achieve goals. Today's activities are tomorrow's history. If we add this event to a list of community achievements, then we are strengthening Canada on what it stands for.

May we be able to stop Sunday night (July 2) and feel something of worth has been done for this area. Co-operation is the essence of the Quinte Classic.

Yours truly,
Malcolm Maclean

COSTUME HELP NEEDED

Dear Editor:

The Costume Society of Ontario is presently conducting research on "Man's Occupational or Work Clothing worn in Ontario during the 19th Century." We would appreciate very much your bringing this matter to the

By gol, I seem to meet the queerest folk. One day last week, a real scroacher it were. I laid down on the flop couch after dinner, before I went out to finish the mowing. Elma were in town and there was only me and my old dog around the place.

Well, I just dozed off nice, when the dogs starts in to hollering something fierce. I weren't too pleased about that, I can tell you, so I had to get up and see whatall the noise was.

When I looks out in the yard, there's this old guy, decked up in the queerest outfit I seen in years. Great big boots, and a parka and paksack, waving this map at me. He says "Can you tell me where I am?"

Weren't nothing for it, I had to go out and talk to him. Seems he was on a walking holiday and had missed his turning. "I should of followed the map," he says to me, "but I figgered I knew better. Then afore I could get a word in, he says, "You know, there's a lesson to be learned in that, on the road of life, we should all follow the map," and he whips open his pack sack and gives me this tract. Well right off, I got him pegged, and on account of I still had a lot of mowing to put in, I reckoned I'd better

get rid of him quick like.

Well, next he wanted a drink, so we filled up his canteen from the well, and while we was doing that, we got to talking over the weather.

I said that we could do with some of them thunderstorms as is going around. Trouble is they always do go around this part of the world. Why, my garden's so dry the grasshoppers is carrying lunch pails.

Anyways, he said that lightning were a terrible thing, and he was scared of it. Then come the capper. "I just had terrible news from my friend in Nepal", he says. "Right at the beginning of the closing hymn, lightning struck the church. Five dead and sixteen stunned - terrible news."

Now I reckon it must have been pretty terrible for the relatives of them folks, but still I struck me as funny, the way he said it. Reckon it must of put Christianity back fifty years in Nepal - don't you?

Girls' softball tournament held

On Friday, June 16, the County Elementary Schools held their annual Girls Softball tournament at Athol School. In attendance were Queen Elizabeth, Kente, South Marysburgh, North Marysburgh, CML Smider, Sophiasburgh and Athol Schools.

Sophiasburgh Spartans proved to be the eventual winner, beating the defending champs Kente in a two-game final.

To get to the final, Sophiasburgh defeated Athol in the opening game, but then dropped a tight game to South Marysburgh. This put them in the losing side of the tournament but they still had a chance to come back for the final. They did this by again beating Athol and South Marysburgh for a berth in the finals against Kente.

As Kente was as yet undefeated, Sophiasburgh had to beat them twice. This was done in fine style in the two games.

Faye Robin pitched the two victories with relief help in the first game from Carrie Messer. Major hits in the two games were hit by Karen Stone, Helena Bulpit, Kathy Pearsall, Carrie Messer and Faye Robin. Solid support was given by the rest of the team members who were Cindy MacDonald, Deirdre Evans, Lisa Turner, Debbie Rabbie, Kim Powell and Carrie Mitchell.

This marked the third championship for the Spartan girls this year and a fitting end to the school year.

Local high schools promote new plan for better adult education

The secondary schools of Hastings County may soon benefit from the presence of adult learners. Changes in Ministry regulations now make it possible for adults to achieve credits for a diploma.

The eight high schools of this county are launching a promotion campaign to inform the public of the educational opportunities awaiting the housewife, the retired and the worker with free time during the day.

Recent changes in the regulations set down by the Ministry of Education make it possible for adults to cash in on their age and experience. Equivalent credit allowance can be granted, shortening the time necessary for earning the credits required for a diploma.

According to the circular which details Secondary Diploma Requirements, a mature student is at least 18 years old and has not attended day school for at least one year. Maturity allowance is granted on the basis of age and length of time out of school.

Allowances may also be given for equivalent education; that is individual courses which have been successfully completed- but are not normally identified as secondary school courses.

The Ministry states that equivalent credit allowance will be granted by a secondary school principal or by a central agency of a school board.

Now that declining enrollments are creating spaces in the secondary schools of Hastings County, teachers are anxious to offer the opportunity to adults to improve or further their secondary education during the day.

Interested persons should contact any secondary school principal or the Board Office for information.

MORE ABOUT BERRIES

Strawberries are a 'go-with' food. They go well with bananas, apples, rhubarb, peaches, etc.

This week's cobbler uses a three-fruit combination and the drink recipe is a happy (and healthy) marriage of bananas and strawberries.

Dining establishments always prepare the Coeurs a la Creme in one-serving size molds for obvious sensible reasons, but for home consumption the big mold is much more impressive.

BANANA STRAWBERRY DELIGHT

Buttermilk or plain yogurt. 1 cup
Banana, one
Strawberries, large, 4
Ice cubes, 3 or 4
Honey, 1 tsp (optional)

Blend all ingredients in a blender until smooth. Serves 2.

STRAWBERRY-RHUBARB-APPLE COBBLER

Sugar, one and a half cups
Apple juice, 1 cup
Water, half a cup
Rhubarb, diced, 2 cups
Strawberries, sliced, 2 cups
Vanilla, 1 tsp
All-purpose flour, 1 cup
Sugar, 2 tbsps
Baking powder, one and a half tsp.
Mace, one-half tsp. (do not omit)
Butter, quarter cup
Milk or cream, quarter cup
Sugar and nutmeg
Soft butter

Bring the sugar, apple juice, water to a boil and stir until sugar is dissolved.

Remove from heat, add the rhubarb, strawberries and vanilla. Mix well and pour into a pudding dish.

To prepare the batter, sift together the flour, sugar, baking powder and mace. Cut in the butter, and then add the milk or cream. Stir quickly to blend, and drop by spoonfuls over the fruit.

Sprinkle top with sugar and a dash of nutmeg, and dot with soft butter.

Bake at 450 degrees for 20-25 minutes. Serves 6.

COEUR A LA CREME

Quark, one and a half cups (12 ounces)
Cream cheese, 1 cup (8 ounces)
Heavy cream, one half cup
Softened butter, 2 tbsps
Icing sugar, sifted, quarter cup (optional)

Strawberries, 1 quart

In blender, beat together the Quark, cream cheese, cream, butter and sugar, until very smooth.

Press into 3-cup heart-shaped gelatin mold, which has been rubbed with butter, forcing down as hard as possible with the back of a spoon. Place over top, and weight it with heavy object such as a brick. Chill in refrigerator overnight.

Dip quickly in warm water to unmold, turn out on large, round platter, and smooth surface with a knife. Return to refrigerator to keep chilled.

Wash the strawberries, using only the most perfect one, preferably with stems left on.

Surround the Coeur a la Creme with strawberries.

To serve, cut portion of the cheese, and serve several strawberries with each. Serves 8.

Best view of races from park

To get the best view of the North American Cup races this weekend, Deseronto's Centennial Park is the place to go.

The course is a one and two-thirds mile oval, directly in front of the park. The sheltered water of the Mill Pond will allow the boats to reach speeds in excess of 90 mph in the straight away.

Racers from Canada are in the position, for the first time, to run the Championship in home waters. kDoug Thompson of Wellington who is the present North American Champion for the 350 cc class is going to be here to defend his title.

The classes racing for the championship are F-250 cc, F-350 cc, and F-500 cc. Class races for 500 cc runabout and combined class of 75 and 100 cc outboards will fill out the race program.

The trials start Sunday morning with the eliminations and championship races start at noon.

Races will be run in two stages. First the eliminations to end up with 12 boats in each class, then the final race for the trophy in each class.

The races are sanctioned by the Canadian Boating Federation and the American Power Boat Association. Over 125 entries are expected.

Round Up

BUMPING INTO TOWN AGAIN

The road to Deseronto is bumpy, from almost every direction.

Crossing the Skyway Bridge and coming in the shore road, you run into all the obstructions of road equipment, gravel patches, and detours around the work going on on Main Street.

Coming from Napanee along Highway 2 is also a tooth-rattling experience because of the road work there.

And, if you try to alternate on Highway 401, it's not much better. There's no road work to obstruct you but the highway itself is badly in need of resurfacing.

Well, ho hum...so what else is new. It seems this is a regular summer problem for the town. Last year it was Highway 2 through Deseronto that was getting the

workout and some residents are still worried about when construction problems there will be corrected. Some driveways are impassable and pedestrians have to climb over high shoulders in the winter time.

CHILDREN'S SERVICES

Latest step in the controversy over a proposed pilot project to integrate children's services in Hastings and Prince Edward, was the resignation, last week, of Bloomfield Reeve Ben Prinzen from the local Children's Aid Society.

His resignation came following a debate over the status of the CAS versus

the pilot project.

MORTGAGES FOR SALE

Ontario Mortgage Corporation which recently sold about \$55 million in residential home ownership mortgages is now offering for sale an additional \$67 million in mortgages.

The sale covers about 1,850 detached and semi-detached homes, condominium townhouses and apartment in a number of places, including Napanee. The units were financed under the Preferred Lending Program and the Ontario Housing Action Program.

Celebrate Belleville's 100th Birthday July 1st

Plaque Dedication - 10.30 a.m.

A half-hour dedication at Victoria Park in Belleville. The Hastings County Historical Society and Ontario Heritage Foundation will unveil an historical plaque in honour of Belleville's Centennial.

Grand Parade - 12.30 p.m.

Don't miss the Grand Procession through the streets of Belleville. It's expected to be up to two miles long with lots of music and old-fashioned entertainment. This parade is modelled after the one held 100 years ago to celebrate Belleville's first birthday as a city. The parade will wind its way through the major streets of Belleville and finally down Front Street past the city hall.

Commodore's Sail Past - 2 p.m.

As many as 500 sail boats and power boats will take part in the Commodore's Centennial Sail Past at the Harbour Yacht Club area. Participants are coming from Trenton, Kingston, Watertown, and as far away as Toronto, Rochester and Syracuse to salute Belleville's 100th Birthday.

Centennial Dinner and Ball

Quinte Sports Centre

The evening will begin at 6 p.m. with a cocktail hour and dinner will be served at 7 p.m. This will be followed by dancing to the Commodores and entertainment by "Charlie Farquharson."

CARDS OF THANKS

The family of the late Finley Elmy wishes to express sincere appreciation for the kindness shown by relatives, friends and neighbours in the loss of loving husband and Father. We would like to express our thanks to those who sent beautiful floral tributes and those who made donations to the Cancer Fund and other donations. Thanks to LOL 242 Shannonville for the beautiful Orange service Monday night. Also sincere thanks to Rev. Jack Fletcher for a very touching service. Also sincere thanks to Ann and Pete Morris of White & Morris funeral home, Deseronto, for all their kindness and to all who sent flowers. Also sincere thanks to Judy McCullough and Betty McTaggart for being there after the committal service to serve lunch.

On behalf of my late husband, I would like to thank Jim McCullough, Mac Tucker and Clare Topping and all others who helped in seeing our grain. Also thanks to those who drove me to see Finley while a patient in Kingston General Hospital. Thank you for the sympathy cards.

God Bless you All
Lorraine, Philip and Bill and Carol Elmy

THANK YOU

The family of the late Edith Fraser wish to express their sincere thanks and appreciation to their many friends, relatives and neighbours for their kindness, sympathy, cards, flowers, donations to the Heart and Cancer Funds and gifts of food.

Special thanks to Dr. Steenburg and Dr. Little, the staff of Hillcrest Nursing Home, Rev. Jack Fletcher, Mr. Peter Morris, the Royal Canadian Legion Branch 280 and Ladies' Auxiliary to the Royal Canadian Legion Branch 280.

THANK YOU

I am deeply grateful to my family, relatives and friends for cards, flowers and visits while a patient in L & A County Hospital.

Special thanks to Drs. Siva, Reynolds, Steenburg and Thomsen, the nursing staff on surgical, in X-ray, the laboratory and emergency.

To Rev. F. Barnes and Rev. J. Fletcher for visits and prayers. To neighbours and friends in Deseronto and Parkview Apartments for kindness and treats since coming home.

Sincerely, Vera Ryan

THANK YOU

Mr. and Mrs. Gerald Rendell of Deseronto would like to express their sincere thanks to all their friends, neighbours and family who helped make the marriage of their two sons, Garry who married Laura Brown and Brian who married Wendy Sexsmith on June 24th a happy and successful occasion.

Special thanks to Rev. Bush of the Deseronto Pentecostal Church and Mr. Bernie Johnston, our music man, and thanks to the Legion members for their help.

thanks to the Legion members for their help.

God Bless You All

BAHA'I FAITH**QUESTION:**

What is meant by living the Baha'i life.

ANSWER:

Religion has always been the greatest power to inspire men to lead good lives. The Baha'i Faith sets standards of individual conduct. These include love of God, love of humanity, justice, trustworthiness, honesty, humility and courtesy. Habits which are unclean, degrading and detrimental to a pure and healthy life are forbidden, as are also greed, backbiting and prejudice.

We know that many people promise things they do not do. Baha'ullah has warned: 'He whose words exceed his deeds, know verily, that his non-being is better than his being, his death better than his life.'

The light of good character, Baha'ullah writes, surpasses the light of the sun. Upon these the honour and the glory of the world are based and depend.

The most vital duty in this day, He counsels, is to purify your characters, to correct your manners, and improve your conduct. The beloved of God must show forth such character and conduct among His creatures that the fragrance of their holiness may be shed upon the whole world.

ONTARIO TRAILS

A few months ago, I was visiting in an area near the Bruce Trail. I spent a glorious day following a trout stream through a lovely wooded part of the Trail without having to worry about trespassing on someone's land. There was no litter, there were no pop cans.

Unfortunately, this is apparently not the case on other routes of the Trail and the whole concept is being threatened because of a few, inconsiderate, careless people.

The Bruce Trail is not the only Trail in Ontario; for those who want to walk close to home or are travelling in other parts of Ontario there are some very good trails.

QUINTE-HASTINGS Opened in 1972, this is a recreational trail, parts of which are used summer and winter for cycling, trail biking, snowmobiling and cross country skiing as well as hiking.

From Outlet Beach Provincial Park the trail skirts Trenton, Stirling and Madoc and ends in the Canadian Shield at Lake St. Peter Provincial Park. Leaflets are available from various parks. Full maps go to members of the Quinte-Hastings Recreational Trail Association, Box 1333, Belleville.

THE RIDEAU TRAIL At 390 kilometres second-longest after the Bruce Trail, the Rideau Trail connects Ottawa and Kingston. There is some parkland and some stretches of roads, but most of it is on private land. Membership information is available from the Rideau Trail Association, Box 15, Kingston.

CANARASKA This was Ontario's second trail, after the Bruce, and has about 190 km for walking. The most popular section is near Garden Hill (20 kilometres northwest of Port Hope).

where the trail passes through the Ganaraska Forest. There is interesting terrain to the south along the river and some scenic views to the north where the old railway right-of-way followed by the trail cuts through hills and valleys.

The Ganaraska Trail Association sends information only to members. Application forms are available from Box 1136 Barrie.

ALGONQUIN PARK There are two major hiking trails in the park, both starting from parking lots on Highway 80.

The Western Uplands Hiking Trail, three kilometres in from the park's west gate, has three loops with round-trip lengths of 32 to 71 kilometres. The Highland Hiking Trail, about 30 kilometres farther east, has loops of 19 and 35 kilometres.

Both trails are moderately rugged, take several days and are for backpackers. Camping must be at designated sites. Permits are required and there is a quota of users on each trail.

BRUCE TRAIL Most people associate the Bruce with the Forks of the Credit, the Blue Mountains or Rattlesnake Point, but there are many miles of interesting walking along what is still open of the 690 km trail.

Southeast of Hamilton, look for trail blazes along the Scenic Route on the brink of the escarpment east of Stoney Creek. West of Toronto, the view across Halton Region is spectacular from Mount Nemo which you can reach on the Gue Iph Line a few kilometres north of Highway 5.

For details write for membership application to the Bruce Trail Association, 33 Hardale Cres., Hamilton.

AMONG THE EARLY SHOPPERS at the new I.D.A. drug store in Deseronto were Mrs. Kim Powell and Hazel Gordanier. Helping them with their purchase is Ken Lester.

Deseronto Council Briefs

*** A presentation was made by a representative of Frank Cowan Insurance Limited, with recommendations for some changes in coverage and premiums to cover the town's liabilities and possible fire or theft losses, at Monday night's meeting of Deseronto Council. It was turned over to the Finance Committee for consideration.

*** Notification was received from the Ministry of Transportation and Communications that a supplementary **SUBSIDY ALLOCATION** of 15,000 for construction had been authorized for the town. Deseronto had asked for \$10,000. The question was raised

whether this would drastically alter any plans and Deputy Reeve B. Johnston said, 'Actually \$5,000 was what we were hoping to get'.

*** Council decided not to alter its position on **ZONING** of Lot 48, block B as residential. Council will forward its objections to the Ontario Municipal Board for consideration.

*** Steps have been installed at the dock in **CENTENNIAL PARK** and the park is being readied for the weekend boat races now.

*** The question of the **DAWSON PROPERTY** on Highway 2 came up again. 'Will the driveway work be done

this year. Councillor C. Zieman wanted to know. The work is to be done after road construction elsewhere in town is completed...probably in September, he was told.

*** Problems of **DRAINAGE** on Mill Street were raised. Deputy Reeve B. Johnston informed council that some resurfacing would be done this year but no drains were to be put in. However, the resurfacing will be set up so drains can be looked after later.

*** Copy of a bill...an **ACT** to streamline licensing of businesses by municipalities...was received from Ontario's treasurer, Darcy McKeough.

Decision Made on Policing

Continued from Page 1

One of the holdups may have been the fact that police salary negotiations have been going on for some time now.

When he handed in his resignation, Chief Beattie stressed that the fact that the force had been reduced to three men had no bearing on his decision. And he also said that salary was not a problem either.

OBITUARIES

MISS ELIZABETH EMMONS

Miss Elizabeth (Marie) Emmons, of 26 Catherine Street, Belleville, passed away at the Belleville General Hospital on Sunday, June 25, 1978, in her 75th year.

She was the daughter of the late Mr. and Mrs. Byron Emmons and was preceded by her brother, Thomas Emmons, Thomasburg, Ontario.

Dear aunt of Betty Emmons, Vancouver, B.C.; Shirley (Mrs. James Love) of Thornhill, Ontario; and nephew Douglas Emmons of Ottawa. Loved by several great nieces and nephews.

Funeral service was held June 28, 1978, at 2 p.m. in the Thompson Funeral Chapel, 38 Everett Street, Belleville.

Interment was in Belleville Cemetery. Rev. Newman Tiroux officiated.

PRAIRIE SCHOONERS AND CIRCUS WAGONS are among the more "modern" models included in John Black's collection

Hobby Horses

Continued from Page 1

He has been asked to display them in Toronto but packing them for moving around is a lot of work. Each horse has to be packed separately and they are easy to break. "Lucky I haven't broken any yet," he said.

"I wouldn't mind showing them at the Royal Winter Fair," he said, but has no plans for that yet.

Before he got into this hobby, he and his wife had done some collecting of Royal Doulton pieces. They have about 25 of them, figurines mostly. He likes the men figures better than the women. "The men figurines seem to have more character in their faces," he said. "The women look as if the same head was used for all of them."

The window displays are attracting a great deal of attention. There are often a dozen or more people looking in the windows at any one time.

The display area was the former Bata shoe store on Front Street, and he is not being charged for the window space. He expects he may keep his display there for several more weeks.

He says he is not worried about anyone damaging them as the lights are on in the window all night.

Angus Mowat trophy race July 7th

Entries are now coming in for the first Angus Mowat Trophy Race, which is scheduled for July 7.

On the evening of July 7, at 8 o'clock, the sail boats will move out of Picton Bay for a race through the Upper Cap to Main Duck Island, then to Pigeon Island and Brothers Islands, all to port, and back to Picton. Distance is estimated at 90 nautical miles.

In order to enable the widest participation possible, the race will be open to all boats which can conform to the safety requirements.

The overall winner will be presented with the Angus Mowat Trophy and an

appropriate keeper.

The late Angus Mowat of Northport was born, grew up and started sailing at the age of five in Trenton. His death last fall removed a familiar figure in a unique boat from the boating scene.

It is because of his life-long association with sailing and the Quinte area, that the Prince Edward Yacht Club is sponsoring this race in his memory.

And Angus' boat, which took him seven years of hard work to reconstruct, will be in the race. We have learned that it is qualifying as an official entry. It will be skipped by Niall Carney of Picton.

Bicycle accidents are increasing

This is what Ontario is doing to help make bicycling safer

Stay alert to stay alive!

Many bicycle accidents involve collisions with cars or trucks whose drivers never "see" the bicyclist until after it's too late. As a bicyclist, you have just as much right to the road as cars, buses or trucks. But you're small and they're big, and being right doesn't help if they don't see you! So it's up to you to watch out for you.

Stay alert to stay alive!

We urge you and your family to become familiar with the rules of bicycle safety.

Your Ontario government has prepared a special booklet called "The Bicyclist's Handbook". It covers cycling tips, rules of the road, traffic signs, how to become an expert cyclist and how to maintain a safe bicycle.

For your free copy, write to:

Bicyclist's Handbook

HAPPENINGS

Mr. Roy Sharpe, Kingston, attended the Oddfellows and Legion Branch 116 Service for William Miller on Thursday evening, June 22.

Mr. and Mrs. C. Barnhardt returned from a visit to the U.S.

Miss Kim Green and Nikki returned from Fulton N.Y. She stayed with her brothers and sister while her parents, Mr. and Mrs. Clayton Green motored to Hampton, N.B., to visit Mr. and Mrs. Wm. Sly, Mary Anne and Billy.

On June 11, Leslie Hearn, daughter of M. Corp. and Mrs. G.L. Hearn of Fort Henry Heights, granddaughter of Mrs. M. Ryan and Mr. and Mrs. Eldon Hearn, Deseronto, made her Confirmation at the Chapel on the base.

The Bishop of Ontario confirmed a group of young people on this special occasion.

Attending were Mr. and Mrs. E. Hearn, godmother, Mrs. R. Brant, daughters Janet and Jennifer, godfather Mr. Wm. Ryan and Mrs. Ryan, Napanee, many other relatives and friends.

After the service, a delicious buffet luncheon was served at their home. As they were in hospital, Mrs. Ryan and great-grandmother Mrs. S. Claus, sr., were unable to attend.

The Presbyterian Sunday school teachers, children and parents joined Rev. R. Jones and family at McDonald's in Belleville on Saturday, June 24, at noon for lunch. Michelle Brooks has a birthday June 28 and Mr. Jones June 30, so all the group sang 'Happy Birthday'.

Following lunch they were supposed to go to Zwick's Island Park but with a special event taking place there, the park was very crowded. Rev. Jones took them to a lovely little riverside park near the city.

Some enjoyed wading across the river, others relaxed. Games were played, races, shoe kicks, etc. Prizes were given to the youngest there, Becky Holland, and the oldest, Mrs. Mabel Moore. Before leaving for home the children enjoyed a candy scramble.

Although some children and parents

were unable to attend, those who were there had a wonderful time.

Sunday School will meet again in September.

Saturday morning, a bus, chartered by the Napanee Historical Society, passed through town on a tour of historical spots along the Salmon River.

While it was in town, Mrs. Florine Sexsmith of Deseronto took the mike to tell the passengers about Deseronto 'The Town of Friendly People'.

The Amateur Choral Group of Shannonville and Area entertained for the Trimmets at Queen Elizabeth School on the evening of June 6. The next afternoon they assisted in a program at Tyendinaga Public School, at which time they presented Richard McCullough with a cheque and an award in honour of his musical achievements.

On June 17, they travelled with the Senior Citizen Club to Kingston where they took a small part in the entertainment for the members of various clubs attending the get-together sponsored by the Senior Citizen Clubs of Kingston.

On June 21, they provided a two-hour program in Madoc for the Madoc Senior Citizen Club to celebrate their Centennial. This program was televised by Cableview 4 of Belleville for showing at a later date.

EMPEY HILL

The auction sale held at the farm of Mr. and Mrs. Jas. Hewitt, Saturday afternoon, was well attended.

Mr. and Mrs. Floyd Switzer, Kingston, were Saturday evening dinner guests of Mr. and Mrs. Chas. Akey.

Mr. and Mrs. Ray Hicks (Maude Tullock) of Baldurville, N.Y., called on Mr. and Mrs. Harold Tullock, Saturday.

Mrs. Harry McCullough, Whitby, was a recent visitor of Mrs. Francis McCullough. They also called on friends at Lonsdale, Thursday afternoon.

Mr. and Mrs. Earl Kimmerly, Syracuse, N.Y., Mrs. Cecil Maties, Belleville, and Mrs. Harold Kimmerly were Friday evening guests at the Tucker home.

Pleased to report Chas. Akey is home from Kingston General Hospital.

Tyendinaga East WI met at the home of Mr. and Mrs. Lyle Dupre, Tuesday evening with a good attendance.

READ ANY GOOD LABELS LATELY?

**A basic guide to the Who, What, Where, When
and Why of Shopping Canadian.**

Why should you Shop Canadian?

Every time you buy something made in Canada, you help keep a Canadian working. You help keep Canadian money inside Canada. You help to expand and strengthen Canada's economy.

When you think about it, you help yourself.

When should you Shop Canadian?

Whenever you're satisfied that the product or service you need is
(A) made or grown in Canada and
(B) of equal or better value and quality
That's not just good advice... it's good sense.

**MADE IN CANADA
FABRIQUÉ AU CANADA**

What is made in Canada?

Just about everything you need to help you live the life you want. As the saying goes, we have no bananas, but we do have Apples, Bandages, Cranes, Drills, Elevators, Furniture, Glassware, Holiday resorts, Insulation, Jewellery, Kitchen appliances, Lumber, Machines, Newspapers, Office equipment, Potatoes, Quilts, Radio, Steel, Tires, Umbrellas, Vaccines, Vines, X-Ray equipment, Yarns, and Zippers. Everything, in other words, from A to Z.

Who should Shop Canadian?

Every day, most of us have the choice. Whether we're buying groceries for the home or supplies for business, farm or industry. If each of us added only \$10 a week to Canadian made purchases, Canada would be over 10 billion dollars better off in just one year. Who should Shop Canadian? You should.

Where does it say Made in Canada?

Sometimes it doesn't. Sometimes a sign says "Product of P.E.I." Or "B.C. Apples" or "Fabrique au Québec" or "Made in Manitoba" or "New Brunswick Sardines" or "Grown by Saskatchewan Farmers" or "A Product of Alberta" or "Fresh from Newfoundland" or "Manufactured in Ontario" or "Nova Scotia Lobster". The point is, if you take the trouble to find out, you can usually tell. And, if it's made anywhere in the ten Provinces or the Territories, it is made in Canada.

**Shop Canadian
Magasinons à la canadienne**

This ad was made in Canada. Making this ad employed (for a period of time) a writer, an art director, an account executive, a media buyer, a media planner, a typesetter, an engraver, a platemaker, a traffic operator, several switchboard operators, various mailmen, shippers and secretaries, publication reps, publication make-up people, not to mention all their various suppliers. Everyone of these people lives and works in Canada.

Deseronto Quinte Old Timers meet

The Deseronto Quinte Old Timers Club met for their business meeting, Wednesday, June 21.

The president, Mabel Moon, had the usual opening with the National Anthem and the Lord's Prayer. She said she was very happy to see so many members at the 9:30 a.m. service at the Presbyterian Church of the Redeemer on Sunday, June 18, for the starting of Senior Citizens' Week.

A new member, Vera Therien, was welcomed to the group. Mabel Moon suggested that two members, Bertha Mansfield and Albert Reed, be made Life Members, to which everyone agreed.

Minutes and correspondence were read, and reports given by various committees.

The cancelled June 19 boat trip was once again set for July 10, everyone to be at the post office at 7:15 a.m. All bring your own plates etc.

Jack McEwen and Jesse Silver were asked to arrange another bus trip for a later date.

Police Chief Carl Beatty chaired the meeting for election of officers. Results as follows: president, Mabel Moon; 1st vice, Ruby Tucker; 2nd vice, Beatrice Woodcock; 3rd vice, Willis Maracle; treasurer, Eric Gustafson. Gus also offered to act as recording secretary until a permanent one can be appointed. Membership chairman, Grace Martin; sick and welfare, Muriel Blaney; social convener, Elsie Palmer.

The president thanked Carl Beatty for conducting the election of officers.

No meetings are held in July and August. They will start in September in the new Lions Hall on Main Street. Meeting was adjourned and refreshments served.
